BOTH TRADITIONAL and contemporary crafts were featured at the first annual Christmas bazaar held at the Community Center December 4. Food and rummage were also popular items. Twenty one individuals and organizations ped-

dled their wares in a festive holiday atmosphere. The bazaar was considered so successful that next year's has already been scheduled.

Holiday Safety - Do's and Don'ts From: The Warm Springs Fire Department

The Christmas season usually goes hand in hand with traditions. Many traditions revolve around the decorating of the christmas tree, and the purchasing of gifts for loved ones and friends. Underwriters Laboratories Inc., a not-for-profit organization testing for public safety, and your local fire department, would like to offer a few tips to help make your holiday safe - not sorry.

DO be careful when buying your tree -

1. When purchasing your christmas tree this year, buy a firm, fresh tree. Store it in a cool place with the base of the tree in water - until ready to be decorated.

2. If you are buying an artificial tree - be sure to look for the UL Label which tells you it is classified as flame resistant.

NOTICE

The Lions Club will hold their regular meetings every 2nd and 4th Tuesday of each month, however, if the Tuesday should fall on a holiday the meeting will be held on the following Tuesday.

The place is a Alice's Restaurant at 7:00 a.m.

NOTICE

The Warm Springs Rodeo Association wishes that all water be shut off at the rodeo grounds for the remainder of the winter season because of freezing water pipes.

There has already been damage to the water line due to the cold weather.

DO make a check of the decorations you use -

1. Remember to check the decorative lighting strings for frayed wires, broken cords, and loose sockets. These conditions pose potential electrical hazards. Use only light strings that bear a UL Label.

2. When trimming the tree, avoid using candles or other decorations that may ignite easily. Keep the tree away from the fireplace, radiator, and the T.V. set - any source of heat may cause the tree to become dry, thus creating a fire hazard.

DON'T overdo it -

1. Be sure not to overload the electrical circuits in your home. The wires that carry more current than they can handle may overheat and cause a fire. Read manufacturer's instructions on lighting strings carefully and do not use more than the recommended number of lights in one circuit.

2. Christmas decorations are beautiful - and very pleasant to look at. However, when you leave your home or retire for the night, turn off the light sets, colored spot lights, or other decorations.

DON'T settle for the unknown -

1. When purchasing gifts for the people you care about take time out to check for the UL Label. Gifts of electric food blenders, hair dryers, hot combs, and the like are tested for safety by Underwriters Laboratories. Show that you care - check for the UL Label.

Be safe and happy this Christmas season. When preparing for the holidays take the extra steps to show you care - follow the Do's and Don'ts outlined above. You'll be glad you did.
