What did you do for spring vacation?

Aurel Surface (left) spent at least one day riding her bike equipped with training wheels. When asked what would happen if the training wheels were removed she said simply, "I'd fall over." Aurel figured she'd learn to ride without the extra help "when I get to be 14."

Jimmy George and Lester Begay (below) said they did "nothing" during spring vacation but Spilyay found them to be pretty involved with their comic books at Macy's Store.

Or is it spring at all?
