Highway 26 Accidents Take Their Toll

No one was injured in a rather dramatic-looking wreck on Highway 26 across from Alice's Restaurant Tuesday, July 12.

The driver of a salvage truck was westbound on Highway 26 when he pulled to the right in an attempt to drive around Jimmy Florendo's car which was signaling to turn into Alice's Restaurant.

The salvage truck which was hauling a car on top and towing a large, black van behind apparently got too far off the highway and onto the soft shoulder.

The driver of the truck lost control of his vehicle which rolled off the edge of the highway, coming to rest in the ditch upside down and on top of the car he was hauling. The van being towed was also yanked in to the ditch causing extensive damage.

Florendo's car was slightly clipped on the fender when the salvage truck driver tried to maneuver around him.

He was cited for passing illegally on the right.

As the result of a separate accident on Highway 26, 22 year old Marilyn Renee Wilson of Dayton was killed Sunday night, July 17, after the car she was driving collided with a loaded double-trailer rig.

The accident which occured at about 8:45 p.m., four miles west of Warm Springs, caused a giant traffic tie-up in both directions because the car and truck came to rest across the highway.

Both Wilson and a passenger, 20 year old Tim Freeburn, were alive and conscious when Warm Springs police, ambulance, and fire department personnel arrived.

The Wilson car was westbound when it veered into the oncoming lane striking the truck and trailer rig operated by John Hickey Bernard.

Bernard pulled over to the extreme right edge of the highway in an attempt to avoid the accident.

The Wilson car struck the truck on the left side, spinning her car around and pinning her in the vehicle.

She sustained multiple injuries including all broken ribs on her left side. It required approximately one and a half hours to get her out of the twisted wreckage.

She was then transported to Mountain View Hospital by Warm Springs ambulance whereupon she died in the emergency room from internal injuries.

Her passenger, Tim Freeburn, was also taken to Mt. View and later transferred to Bend Memorial Hospital with serious internal injuries. He is reported stable and recovering. The driver of the truck was not injured.

According to tribal police, the primary cause of the accident was failure of the Wilson vehicle to keep to the right lane. There were two eye-witnesses and the investigation is continuing.

Fortunately no one was injured in this spectacular-looking wreck on Highway 26 across from Alice's Restaurant Tuesday, July 12. (Sandy Rangila Photo)

College Transfer Courses Offered Here

Eleven college transfer courses will be offered here at Warm Springs through an independent study program sponsored by COCC.

For those interested in getting a jump on the coming school year or picking up additional credits, the six-week program will run from July 20 to August 24.

Reba Powell has been hired to coordinate the program, register students, tutor, and offer assistance to those pursuing the independent study courses. The classes are being held at the community center in conference room two.

The following courses are offered at $13 per credit-hour plus books - cash required.

Business Administration - BA211, Fundamentals of Accounting (3 credit hours).

Writing 121 - English Composition (3 credit hours).

English 253 - American Literature (3 credit hours).

H.E. 250 - Personal Health (3 credit hours).

History 201 - U.S. History (3 credit hours).

Psy. 204 P.S.U. -Psychology as a Social Science (3 credit hours).

GS 104 - Physical Science (4 credit hours).

Geog. 105 - Introductory Geography (4 credit hours).

0.611 Beginning Algebra - (Non-Transfer Course) (4 credit hours).

Math 95 - Intermediate Algebra (4 credit hours).

Math 101 - College Algebra (4 credit hours).

There will be a catalogue on hand and other courses will be available upon one week's notice.

Morning classes will run from 9:00 a.m. to 11:30 a.m., and evening classes are offered from 7 p.m. to 9:30 p.m.

For further information contact Marlin Reimer, Education Specialist at 553-1121, ext. 403, 404.

Salmon Bake Successful

by Roger Stwyer

A traditional salmon bake, held every year in Cascade Locks, Oregon, "turned out to be very successful," said Neda Greene, "despite the fact that the people didn't hear of it right away."

July 17 was the day set aside for the annual event, and the elders of the tribe spent the whole day praying and giving thanks for the traditionally prepared food.

The meal consisted of salmon, eels, potatoes, corn, fried bread, watermelon, and many other appetizing things.

The dinner was sponsored by the Confederated Tribes of the Warm Springs, and the food was prepared by Mr. and Mrs. Harold Greene and crew.

If you go down next year, you just might come back with a salmon or two, because Harold gives a fish or two away to each family just shortly after the meal is done.

New Dentist Arrives

The next time you hear the familiar phrase "open wide", it might be the new IHS dental officer, Dr. Richard Jenderseck, peering into your mouth.

The thirty year-old dentist arrived in Warm Springs July 12 after having worked the past two years with public health in Honolulu, Hawaii. He is originally from Minnesota.

If there is one thing Dr. Jenderseck will be stressing here at Warm Springs it will be proper tooth care. "Most of the problems with teeth can be avoided through preventive measures," states Jenderseck. "Some of these measures include water flouridation, careful brushing and flossing, and, to some extent, diet control."

Dr. Jenderseck, who says he likes working on "kids" of any size, seems impressed with the facilities here and likes the new and modern equipment.

He and his wife Pamela and their two children, nine year-old Troy and two year old Kimberly, are staying temporarily at the City Center Motel in Madras while looking for more permanent housing.
