

# ... and a classroom full of memories

Sandy Rhodes  
Fourth Grade

## Airplane

It was neat when we took off and it seemed like a truck but there was no wind, and during the flight the clouds looked like snow. When we landed it was smooth. The ground looked like some one patched up.

## Walt Disneyland

The cars were neat, it seemed like a real car. There were lots more rides, too. The train was neat. We went through tunnels and saw some dinosaurs. It was exciting. The Haunted House was very scary — The Bear Country kind of funny. The Matterhorn, it was fast plus it was scary. We splashed in water. We went through It's a Small World. You have to look on both sides. We went on the submarine. We went under water and it takes a boat under the sea. Space Mountain — we went in the dark it was scary, you don't know which way you're going and it went very fast.

## San Diego Zoo

The best thing I liked was the monkeys that were swinging when they waved and then there was a crowd and we lost one. We found her just watching the monkeys and the crowd was gone. We were very worried.

## Game Show

We were not able to go because they won't let kids 6 and under in.

Sandy Rhodes  
Fourth Grade

It was real good felt good  
it tickled my tummy.

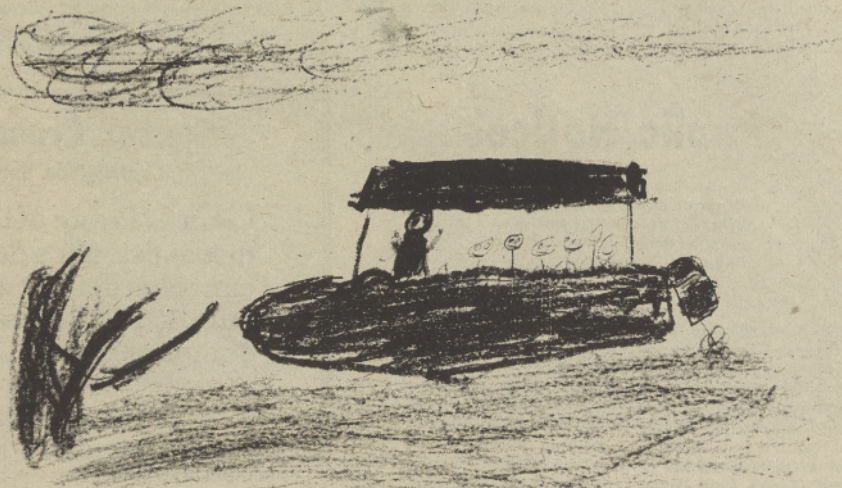

Noni McCraige  
First Grade

I felt good turning on the Jet and when we landed at Los Angeles airport and portland airport and the tables came out of the seat and looking down at the clouds and the ocean.

Timothy Yahtin  
Second Grade

I felt Good When I seen  
the Dinosaurs.

Emiliano Williams
