Simnasho Mini-Marathon

An event all can enjoy

Hazards of the sport

The finish is just around the bend

To the winners go the trophies

Some folks ran for the sport of it, some ran for the competition, and others ran to test themselves. Each of the 225 runners started out with the intention of finishing. Some did, some didn't. One runner in the 14.5 mile run commented, "The first ten miles were easy." Those people who ran — whether it be in the 3-mile, the 6-mile or the 14.5 mile run should be commended just for running.

Not only did runners exert a lot of energy but so did the Simnasho 4-H "Discovery" Club, parents of the students, volunteers and spectators. Everyone worked to make the 3rd Annual Simnasho Mini-

Marathon the success that it obviously was. Unfortunately, not all the runners could take home a trophy. Awards went to the following runners.
