

# Community prepares for holidays

*With shiny bright faces, and all decked out in a new outfit the children of the Warm Spring Elementary School presented a Christmas carol at the annual Christmas program at the Community Center. Each year the program offers to the Warm Springs community an evening of Christmas entertainment, togetherness and spirit.*

*The craft room at the Community Center was busy prior to Christmas with activities for decorating and making gifts. Children received instruction from Carol Allison in graham cracker house building. After the house is built it can either be displayed amidst other Christmas decorations or eaten. Most children choose the latter.*

*The office tree is as much a part of Christmas in Warm Springs as any tradition. Getting it requires a trip to the woods, a saw and a way to transport it.*
