

# Museum to depict tribal history

Dear Tribal members and other Friends:

In this special insert in the *Spilyay Tymoo* you will read of our plans and progress for construction of our museum/cultural center.

We have worked very hard to reach this point and the "Storyline" is the first step toward knocking on the foundation doors to seek construction funding. We hope you will find it interesting, informative and correct; however, we do solicit your comments. If you are not able to attend the meetings, please feel free to submit your written comments; we welcome them.

Sincerely,

*Nelson Wallulatam*
