"Spilyay Speaks"

The Information Fair was a success: For the first time ever the Secretary/Treasurer called upon the troops to stage an information fair from all the tribal departments. The purpose of the fair was to give the tribal membership a birds eye view on how each department functions.

This was a means of closing the communication gap between the employees and the tribal membership, and to show that all the tribal employees are, "Somebody." Being recognized as a somebody motivates individuals to want to accomplish something positive for the tribal organization. Productivity, effectiveness, and job performance

are clear indications that each department is willing to meet the challenge, strive for excellence in their field of operations as a tribal unit.

Every department set up a booth displaying equipment used and the personnel who operate them or who have certain connections in the function of the department. There were personnel on hand to answer any question regarding their departments. This also gave the true picture on how the department operates and why these dollars are requested in the annual budget.

It is pathetic that we failed to advertise on a larger scale reasoning for the information fair, this giving all the tribal members a chance to see at first hand who, what, when and where their dollars are being used. This is going to become an annual affair where each department will stand ready to answer any questions regarding their departments budget request.

Thank You

To the Editor,

I would like to thank everyone who attended my little boy Owen, Jr's 1st birthday.

First of all I would like to thank all the friends and relatives who attended and brought gifts (I will be sending out thank you notes), the longhouse committee and tribal council for use of the longhouse, and Tootsie Danzuka and Debbie Smith for the delicious cake.

I would like to give a special thank you to my mother Charlotte, sister Lana, sister Adams (I don't know what her real name is), and Ruth Adams for helping to cook the dinner, without you special people it never would have been so memorable. I can't thank you enough.

You are the greatest,
Sandra Shike Danzuka

Hints from the learning center

Confused about semi-colon usage? Here's a hint: semi-colons used within a sentence usually combine two independent clauses which are closely connected in thought. Check to see that each part of the sentence can stand alone. If so, a semi-colon (and perhaps a conjunction) can combine the two sentences into one. If either half an incomplete, then a semi-colon is too strong and some other punctuation (probably a

comma) should be used. Read the following sentences. The meeting was called for 2 p.m.; it began at 3.

When I'm on jury duty, I don't have time to cook.

The first sentence could be divided into two separate sentences; therefore, a semi-colon correctly joins the two thoughts. The second sentence appears to have two thoughts, but notice that "When I'm on jury duty" can not stand alone as a sentence. The second sentence, then, needs a comma and not a semi-colon.

Would you like to know more about punctuation? The Adult Learning Center offers classes and individualized instruction in English, math, reading and study skills. The Center also helps people prepare for the G.E.D. exams or work for their high school diploma. Call the Center at 553-1428, or drop in upstairs in the Training Services Building for more information.
