Forest service to manage gorge

Legislation creating the Columbia Gorge National Scenic Area (CGNSA) was signed by the President November 17, 1986 and now becomes law in managing 277,000 acres of the Columbia Gorge, according to USDA Forest Service Regional Forester James F. Torrence. "We're pleased the Congress and the Administration has been able to resolve their concerns so that we now have a law," Torrence said. "We're pleased with the confidence they have expressed in the Forest Service and the role they have identified for us in implementing the legislation. We are delighted to have a law which identifies what we as an agency have realized for a long time, that the Columbia Gorge is a special place. We look forwrd to working with the Governors of Washington and Oregon, the Columbia Gorge Commission, and the six counties involved in developing management

direction for the area. The legislation divided the CGNSA into three areas. Urban areas are exempt from most of the provisions. About half of the remaining area is under the jurisdiciton of a special commission to be established through a bi-state agreement. The remaining areas, the Special Management Areas (SMAs) will be managed by the Forest Service. The Forest Service will work with the Commission in developing a management plan for the entire CGNSA. The legislation also directs the Forest Service to acquire lands in the SMAs through purchase from willing sellers or exchange for existing National Forest lands outide the SMAs.

"I am appointing a special management team to begin immmediate implementation of this legislation," Torrence said. "Art Du-Fault, Forest Supervisor of the Winema National Forest, head-
