Organization News Briefs

Construction notes building progress

638 headquarters project: We have four tribal members (Jerry Polk, George Moses, Kenneth Black-wolfe, Marvin Meanus, Sr.) employed on this project, and one Indian married into the tribe (Edison Yazzie). Work on this project will continue on the three metal buildings, and the Fire Control addition in the Industrial Park. All areas of the construction have been accepted by the inspection on the second phase of this project, except the Fire Control addition. Those sites accepted include the three

look-out towers and the in-lieu fishing sites, at Cascade Locks and Lone Pine.

LHA Administration & Maintenance building: We have three tribal members (Rueben Johnson, John Courtney and Alvis Smith, III), and one other Indian working on this project. The maintenance building has the concrete footings and stemwalls complete with the interior backfilled and compacted and waterproofing material on the exterior of the stemwall complete. The administration building has

the concrete footings and stemwalls complete with backfillings compacted on the interior walls, and the 4" water main for the interior sprinkler system installed. The concrete slab has been delayed, awaiting the State plumbing inspector to check the rough-in plumbing.

Garment Factory addition: Throughout this project, we've had the employee's listed under the LHA project, also work on this one. This job is scheduled for being 100 percent complete by the end of this week (9/19/87), and a final inspection notice is being submitted to the Tribal Inspection office. We hope to see this operation utilizing this much needed space as soon as the final inspection is performed.

IHS Lagoon Project: We have two tribal members (Marvin Ike and William "Hobo" Patt), receiving on-the-job training to operate various heavy equipment being used on this project. By the end of this week (9/18/87), the waste water ponds will be completed, and the sewer construction started.

JSA reports summer's activities

Now that the new school year has approached, "we've been slowly getting back to the "normal" routine as summer workers have left and the last of the student trainees are completing their final days of work for the summer.

Cheryl Stinnet has worked as the JSA Student trainee for the entire summer. Cheryl was assigned to assist the Records Division, but has been available to assist in other duties as assigned, as well. Sometimes, a program gets an individual that is very capable of performing any task assigned—that is how Cheryl has exhibited her abilities

The eleventh employee awards luncheon that was scheduled for September 25, 1987, has been changed to October 16, 1987. Award recipients that received notification, please note this important change.

It is paradox of management that the people who don't think they are indispensable are the ones who are the most valuable to the organization. Look for the following "red flags" to identify people on your staff who think they can't be replaced:

Mail and Reception

There have been changes here in the past two months. First—Patches left us August 3rd. We are sorry to see her go, but we believe she deserves a break after six years of service to the Tribes. Thank you Patches!

Then I (George) had to pick up all the responsibilities of the Front Desk area. I never realized what was all involved to keep communication services in working order. Everything is moving slow, so please be patient.

As of September 1—Sheilah Wah-netah was hired as the second Operator/Receptionist. Welcome aboard Sheilah!

1. Who doesn't take vacations or takes them only one or two days at a time?

2. Who tries to perform the job long-distance while on vacation.

3. Who tries to manage activities instead of managing results.

4. Who is too busy to talk to staff members except before or after office hours?

5. Who seems to cause frustration among subordinates?

6. Who is never in the office when unsolvable problems, crisis and emergencies occur.

The Tribes are looking at phone systems for future modifications. We will keep you posted. Don't forget that Warm Springs Phone services will be changed over to touch tone from rotary on September 29, 1987.

Phone changes to note: Sal Sahme, has a new extension phone number, #266.

Data Processing

Please contact Sandra Danzuka for any micro computer supply (ribbons, paper, diskettes, etc.)

Please contact Val Squimphen for any HP3000 computer supply (ribbons, paper, checks, etc.).

We haven't seen much of Pixie this summer, as Rob as attempted to give her some hands on experience in dealing with actual case research and an inside look at the field of Law Enforcement Investigations. We hope that this summer Pixie has gained some valuable insight into this field and encourage her to continue her interest in Law Enforcement.

Radine Kirk, also a Student Trainee, was brought on for a brief period of three weeks and has been assisting Sonja Howtopat in the Prosecutor's Office. Radine has been under the supervision of Gene Smith, Tribal Prosecutor. She's been assisting Sonja with filing and is probably becoming aware of what confidentiality is all about. Radine has been here for such a brief period, that we haven't had a chance to really get to know her, but her help in the Prosecutor's Office is appreciated.

Vehicle Pool Policy

Tribal vehicles are to be brought to the vehicle pool every 2,000 miles for service, maintenance and a safety inspection. All operators of tribal vehicles will possess a valid Oregon drivers license. All accidents should/shall be reported to the vehicle pool manager.

All of this information is available to the operators of tribal vehicles in the vehicle pool policy manual. This manual is available via the vehicle pool. Ignorance to these facts or policies seems to be an easy alternative to getting around the responsibilities of proper care of tribal vehicles.

We at the vehicle pool would appreciate any and all help in keeping our fleet running properly and, more importantly, safely.

We also will be sending out driver agreement forms to be signed by every operator of tribal vehicles.

To all the student trainees, we'd like to say Thanks!...and we wish you another successful academic year!

With the 1987-88 school year off to a start, the W.S.P.D. will soon begin coordinating with the W.S. Elementary School in setting up the Self-Manager Tours through the Detention Facility, as a continuance of our public relations program. In working with the thought of prevention in mind, both W.S.E.S. and W.S.P.D. attempt to convey to the children that Police Personnel are available to be their friends and to help them, if needed. This Self-Manager Tour program will continue throughout the year.

All of us in the Justice Services Branch would like to wish a Happy September Birthday to Sara Scott (Fire and Safety), Linda Larson (Communications) and to Woody Smith, Jr., (Patrol).

These will be coming via inter-departmental mail to your supervisors. Please help the tribes become more successful by reading the vehicle pool manual, signing the agreement form and carrying out the agreement. Here is a copy of the form:

To: All Tribal Employees
All Tribal Vehicle Operators

From: Secretary/Treasurer

Subject: Revised Vehicle Pool Policy

From time to time it becomes necessary for the Tribe to improve upon the policies which govern and control tribal assets. The revised Vehicle Pool reflects the changes brought about by organizational growth, budget constraints, and the need to keep current with changing insurance and legal requirements.

Each individual who is required to operate a tribal vehicle must first read the Vehicle Pool Policy and sign on the designated place below. Tribal vehicle operators will be expected to uphold all the provisions of the Vehicle Pool Policy.

Knowing that future changes are inevitable, your questions, comments and/or suggestions regarding this policy are encouraged.

Larry Calica
Secretary/Treasurer

I have read, and understand fully, the Vehicle Pool Policy, and agree to abide by the provisions contained therein.

Fee to be assessed

In the past the rodeo association never charged stockowners to keep their horses at the rodeo grounds, but it has become necessary to assess a fee for boarding livestock because of the cost for repairs to the waterlines and pens. Guidelines are being worked on and fees will start October 1.
