## Tag calendars for sale

Warm Springs Elementary TAG students will be selling birthday calendars at the school on Thursday, December 18. Calendars are \$2.00 each and contain the birthday of every Warm Springs Elementary student and staff.

## Become involved by participating

Involvement in District schools by parents and community members can occur in different ways. Many committees and organizations need concerned people to get things done. A list of opportunities for involvement in District decision-making and activities follows.

1. Schoolboard
  1. Run for election.
  2. Attend meetings.
2. School Budget Committee
  1. Submit name for consideration.
  2. Attend meetings.
3. Curriculum Council
  1. Tribal Education Committee has a designated position.
  2. Submit name for consideration as parent member.
4. Johnson O'Malley Committee
  1. Committee membership.
5. Title IV Parent Committee
  1. Committee membership.
6. Vocational Cluster Advisory Committee
  1. Submit your name for consideration as advisory committee member.
7. Citizens Levy Committee
  1. Participate in activities.

The Third Annual Miss Indian USA Pageant was a great success. The three young ladies from the Northwest placed in the top ten finalists: they were Mary Alice Moon, Puyallup, WA, Lynn Lee Hall, Provo, Utah and Lyda Dreamis Scott, Warm Springs, Oregon.

It was again an honor to be affiliated with the American Indian Heritage Week of Events, as a National pageant assistant Director. I would have to report that it was great to have more Warm Springs people in attendance to help encourage and support this great program for Indian people.

Thanks to Gabriel Sohapp, Jr. Hostess, Pat Smith, and Anita Davis who were provided airfare only from the Johnson O'Malley committee and Debbie Smith and Direlle Calica who attended through personal expense.

Lyda Scott was a lovely representative from Warm Springs and presented herself well. She will also be presenting an overview program to the Junior and Senior high school to encourage them to participate in

next years Miss Indian USA pageant and Miss Warm Springs pageant.

The Native American Student Union Council members and committee met December 14, 1987 at 12:30 and scheduled a meeting for all members Monday, December 21, 1987 at 7 p.m. to be held in Warm Springs. The agenda is to select a secretary, Leadership committee representative, constitution and by-law working committee and present reports on the plans for activities.

The NASU have been asked to host a Regional Unity Conference with the help of other educators and youth in the Northwest.

Congratulations to Marcie Stacona, a Junior at Madras High School, selected to be one of two youth to participate in the United Nations Convention, "Rights of the Child," in Geneva, Switzerland, January, 1988.

I have visited with several parents and guardians regarding your student. Please feel free to contact me at any time, 475-7253 or 475-7265. Have a wonderful Holiday!

Warm Springs Elementary celebrated "fitness." Our Wellness team leaders planned a week of activities for students and staff which gave everybody many opportunities to exercise and talk about how to achieve wellness in our lives. The week began with a school-wide assembly and balloon launch to advertise the "Great American Smoke-Out." The next day, students created and performed cheers during lunch time to promote fitness. On Wednesday a one-mile fun run was held at noon for students, staff and community members. Thursday gave students in the fifth grade an opportunity to test the staff's fitness. They challenged the staff to a soccer game on the front field.

Throughout the week, classrooms created posters and murals about fitness concepts to hang in the hall. Classrooms kept track of fitness minutes in hopes of winning the "Class Fitness Contest." Winners of this contest will receive wellness snacks, donated by Macy Market. Also, teachers had an opportunity to participate in some aerobics classes, taught by Eva Montee and Jane Fonda. A big thank you goes to Dawn Smith and Vicki Moore for planning a week of activities for everyone.

Reyes Syndrome Alert: Excerpts from a National Reye's Syndrome Foundation Bulletin.  
Influenza (flu) is a viral infection which has a deadly children's disease associated with it. The disease, Reyes Syndrome, affects children from infancy to late teens. It can develop 3-5 days after the onset of Chicken Pox, a cold or other fever-causing illnesses. It affects the liver and brain, is non-contagious and is often misdiagnosed as encephalitis, meningitis, diabetes, poisoning, drug overdose, or sudden infant death. Recent studies have shown a link between the use of aspirin and the development of Reye's Syndrome.

Watch for these symptoms after a viral infection has seemingly run its course: continuous vomiting, drowsiness (excessive sleeping), delirium, convulsions or loss of consciousness; combativeness (striking out at those trying to help), listlessness (loss of pep and energy), personality change (irritability, slurred speech, sensitivity to touch), disorientation (unable to identify whereabouts, family members, or answer questions).

Early diagnosis is imperative. Phone physician immediately if these symptoms develop and tell him/her you suspect Reye's Syndrome. If

## WSE Fitness Week

During the week of 11/16—11/20

the doctor is not available, take your child to the emergency room.  
There is a 90 percent chance of recovery when the syndrome is treated in its earliest stages. The National Reye's Syndrome Foundation recommends that aspirin (salicylate is another word for aspirin) and combination products containing aspirin not be given children under 18 years of age, during fever-causing illness.

## Classroom Newsbits

This year the WSE Christmas tree in the gym will be decorated with pairs of new mittens. The children will bring mittens from home to donate to the tree. After Christmas, mittens will be distributed, as needed, to children whose families have difficulty affording such necessities for their children.

We received a video tape from Otsego Elementary School in Dix Hills, New York. Some of the teachers at Otsego School are participating in a cultural exchange with some of the WSE teachers. This will mean that their classes will exchange letters, videos, projects, etc. with classes from our school. The view gives us a brief look at a day in the life of Otsego students. We have also sent them a video of WSE, including film taken at our fall Powwow.

Harry Phillips' fifth grade class has been doing a lot of work lately on learning to write a good paragraph. Harry is pleased with their progress. Besides writing, the children are working on multiplication, division, and problem solving during math class, studying explorers in social studies, and doing experiments with mystery gases in science class.

Besides writing, the children are working on multiplication, division, and problem solving during math class, studying explorers in social studies, and doing experiments with mystery gases in science class.

Koby Ann Cook's third grade class is beginning what is expected to be a long unit of study on wild animals. Koby is taking the "Project Wild" classes where she is learning many activity-oriented ideas for her science program. Recently the children made animal collages and color patterns.

Ms. Mary Soliz's second grade class have reached the final phase in the production of their science ABC book. They will be presented to parents on conference day.

Harry Phillips' fifth grade class is starting its study of explorers. They have recently completed their study of early America-Aztecs, Mayans, Incas, Pueblos and Sioux.

Donna Rodgers' first grade class entered a traffic safety poster contest sponsored by the Public Works Department of Bend. Two children in her class were winners: Candice Currie won an award and Ramona Wewa won an honorable mention.
