Tygh Valley All-Indian rodeo results

It was superb rodeo weather on the weekend the Tywama Saddle Club held their 39th annual all-Indian Rodeo in Tygh Valley, May 21, 22. The rodeo was a WSIRA sanctioned rodeo, the first of the year.

Top rodeo stock of the Sombrero Rodeo Stock contractor, formerly of Sisters, Oregon, now based in Sublimity, Oregon, provided the wild and wooley action during the two day show. The colorful event opened with the Pepsi Generation riders followed by the grand entry to kick of the gaitety event.

Top cowboys and cowgirls from all parts of the great northwest were on hand vying for top honors in his or her special event. There were some very good times and some bad times during the show. In the calf roping event in particular where the times were tough to get from the very uncooperative calves. They were big and strong right off the range from near by Wamic. The wild horses gave the cowboys plenty of trouble in the wildhorse race. There were just a few teams who really got their horse saddled during the two day event. The wild cow milking was just as tough as a dried up sole of an old cowboy boot. Those cows gave the cowboys all the trouble they could handle before any milk could be gotten and the times were quite

high. During the steer wrestling sometimes referred to as bulldogging produced many NT's. The steers were fast and tricky. Many times when the cowboy started to get down on the steer it would set up causing the cowboy to over shoot his mark and come up nothing. In the rough stock competition, especially in the bull riding during the two day performance there was only one qualified ride and the rest of the cowboys matched their scores with a big goose egg. Shawn Best of Omak, Washington, was the only bull rider to stay aboard the required eight seconds building up a score of 75 to win the event, as they say, "In the riding it rained cowboys."

During the two day show cowboys and spectators alike couldn't have asked for a better day weather-wise as the temperatures rose to the high 80's and 90's for both days. In the barrel racing, a popular event for the girls, there were 29 entries. They were split into two groups for a one run go-round affair. Half on Saturday and the other half on Sunday. The times were pretty fast and close separating the contestants by tenths of a second or less. Gypsy Williams of Schurz, Nevada came out the winner in that event.

Minor league stats on the Braves

As the season opened May 17, the Madras Builders handed the Braves their first defeat by the score of 8-4, on the 19th the Braves defeated the Thrifty Drugs 23-1, and on the 24th the Braves defeated the Chiefs 13-9 and on Thursday, May 26 Erickson Sentry defeated the Braves 16-14.

According to coach Austin Greene this is a rebuilding year for this ball club. There were only two returning players after major league draft held during first of the season. A lot of younger players on the team this year and it really showed during the first game of the season. After they played the first game they adapted quickly and got into the game more, winning two more games than ran into a stronger, experienced Erickson team. That is probably the strongest team in the minor league age group. As the season progresses, so will experience and we look forward to the challenge of the rest of the season.
