1. The new Post office traffic is very congested, especially when checks come out. It would help if there was an exit on both north and south ends.

As far as I could find out, there are three different organizations involved with this specific area. The BIA, Postal Service and Confederated Tribes. There are plans for this

about three or four years, it doesn't seem to be a priority at this time. 2. Why do the Seniors living in senior homes get their chimneys cleaned and paid for and not our rural seniors? Housing is responsible for maintaining all HUD housing and upkeep. The money for this is allocated by HUD. Also, they are responsible for eight tribal senior units.

## Hospital entrances due to change while in construction

Groundbreaking for the new emergency room and ancillary service areas at Mountain View Hospital and Nursing Home brings about many changes to the Madras facility.

"probably the most important change which will directly affect patients and visitors is the designation of a new entrance for ambulance and emergency patients" states administrator Ron Barnes. "The beginning of construction on Thursday, December 1 will force us to immediately close the emergency entrance which has been used since the facility opened in 1967." A temporary emergency entrance will be located off of 12th Street at the North end of the medical-surgical wing of the hospital. This is the entrance currently used by the public for access to the physical therapy department. "Signs directing ambulances and patients to the new entrance were installed this week prior to the actual closure of the old entrance," said Barnes.

Visitor and business office access will also be affected by the expansion project. While the main entrance to the hospital is scheduled for major renovations, the exact timetable for work in that area is unclear. "We would like to encourage our visitors to use the main entrance to the nursing home for

access to the hospital during the construction process" explained Barnes. "The nursing home's main entrance is most desirable for public use since visitors will immediately enter the area of a nurses station where our staff can further direct them to the proper area of the facility." The main entrance to the nursing home is also off of 12th street and is well marked.

The front entrance to the hospital which has been used since the facility opened in 1967 will be closed during the expansion project. A temporary front entrance may be built to serve people wishing to enter the hospital from the "A" Street side, but its exact location has not yet been determined. The media will be notified in advance of entrance changes by Mountain View.

The year long expansion project at Mountain View will provide space for a new emergency department, laboratory and surgical procedures area. A new main entrance to the hospital, inservice classroom and helinal will also be constructed.

## Closures to be announced

Channels 21 and 5. It may be necessary because of the threat of severe weather or other emergencies to send children home from school early. If any emergency should occur, the matter of departure of your child from school will be decided by the school superintendent. The decision may be to send your children home immediately; it may be to keep them in the schools indefinitely under continued supervision until the emergency has passed. Whatever the decision, it will be with the best interest of your children as the deciding factor. Please select a "second home" where your children may stay in the event you are away from home, and instruct the child concerning the "second home". If the decision is made to keep the students in the respective schools, they may be picked up at the school by checking at the school's office. Remember, in case of this type of emergency please stay tuned to your radio station for information concerning the release of your children from school.

Early morning announcements of school closures or delayed school opening due to snow, ice, or other emergency conditions will be broadcast by the radio stations KWSI, KWSO, KRCO and KPRB, KTVZ
