## "Spilyay Speaks"

Summer travel is something everyone looks forward to especially after a long winter where people have been couped up for several months. The days are pleasant when the sun is shining over the bright green hills and valleys.

At times sightseers can become a road hazzard, especially along two lane highways where they hold up traffic. This causes people to take chances on passing. Sometimes a person will pass several cars at a time risking his own neck as well as those he is passing. It would be polite for sightseers to put over ever so often to let the hasty ones by.

Summer travel is for business also during the weekends. There are those who have to be at a certain place on time, like being at a softball game or a rodeo, or even to make it on time for the grand entry for a powwow. There are people who are rushing around as well as those who are out for pleasure and sight seeing.

Another problem on the roadways is there are some travelers who are creating problems as they travel along about 45 to 50 miles per hour along a highway where it's bad for passing and when they come to where there is a passing lane, they speed up to where no one can pass them and after they leave the passing lanes they slow down again and continue to hold up traffic. I guess they just don't give a hoot for anyone else but themselves.

## Young athletes aren't babied

To the editor,

Kids now days pick up things quicker in life, whether it's in everyday living or sports. For that reason I never baby my athletes. They are taught they can never win them all, but to have fun trying. If they lose, to shake it off and prepare for the next game. Along with that they learn responsibility, team work and most of all sportsmanship, making them winners without making excuses and quitting. That's a bad habit to start.

They were the smallest team in the Junior State games. We played the touney champion in our first game, the Gresham All-stars, who have been playing together for three years. Their starting line-up consisted of 6'5", 6'5", 6'9", 6'4" and 6'1" players. We put a full court man-to-man pressure on them the whole game. We had them beat with a minute and a half left in the game.

Due to turn over and mental mistakes we were defeated 64-60. They received a lot of good compliments from the opposing coach and the spectators at the game. They were expecting a very easy

game. Due to lack of size and having a very young team, I informed the kids they had nothing to feel bad about, just to take it a game at a time through the back door, which they did. In the semi-finals we defeated Oregon City 54-43. It was a tough game from start to finish, because three of our players didn't return on Sunday. That was

Z-Man Smith, Willard Suppah, Jr., and Shane Barnes of Madras.

The other team members consisted of Kanim Smith, Jr., Leif Suppah, Scott Moses, Kahseuss Jackson, Obedt Suppah, David Morrell, Sam Wolfe, and Lil Owl Suppah. They played very hard and showed good representation

## SATURDAY, JULY 29

Memorial dinner and stone setting for Betty David Smith and Lizzie Pitt at the Agency Longhouse.

8 a.m.—Graveside services for Betty at Dry Creek Cemetery

10 a.m.—Graveside services for Lizzie at Agency Cemetery

12 noon—Dinner at the Agency Longhouse Give Away to follow

## "Toya" turned five July 24

On July 24, 1989, this "cute little bundle of joy" turned five years old. She graduated from Mt. Adams Head Start last May and is going on to Kindergarten. We would like to say HAPPY BIRTHDAY "Toya!" from your White Swan family. Love you very much, Grandpa and Grandma Morris Miller and Delores Bennett Miller; Mom Suzanne Quempt; brother Tristin "T.J." Henry; Uncle Benjie Quempt.

Your coach, Carolyn "Girle" Johnson

## Coach enjoys job

To the editor,

Many of you people know me, and how I handle my young athletes. For whatever sports activity I may be coaching, I believe strongly that we must teach our youth to be mentally and physically strong to survive in life, teaching them that they're "Indian" first, before they're anything else, to keep their identity through their culture and traditions. I thank God for having the opportunity to work with a lot of these kids these past few years. I've been coaching here now the past 14 years because I enjoy it, working with our most precious resource here, our children.

I'm not able to please everyone, but I will not lie to a parent about their child's abilities in a sport. If they need work I inform the parent to help them in their weak spots. I don't claim to be the best or the smartest coach around. I'm not saying my way is the right way either. Each coach has his or her way of teaching and communicating. I inform my players that practice is not only on the field but at

## Emergency number 9-1-1 successful

To the community,

The emergency number 9-1-1 has been successful in Warm Springs since it started in November, 1988. Many people have benefitted from this service and it is our hope to make it better with your assistance in solving a problem.

People have called 9-1-1 for such

things as schools being open, the weather, and even the time of day. We also have had children calling in false reports of just calling and hanging up for fun.

We're asking that for non-emergency calls, you contact the Police department by calling 553-3272. Also, please let your children know that if they are calling 9-1-1 for fur

that they could be delaying us getting help to someone who really needs it due to the phone lines being tied up.

Remember that we are here to help you whenever you need us. Thank you.

Lt. E. Bruce Fones  
9-1-1 P.S.A.P. director

## 30th birthday celebrated

Happy Birthday!

From your loving parents Jim and Iva, Gramma Stella, Aunts Inez and Joyce, Sisters Debbi, Neices April, Brothers Toot and Aaron, and your other half Leni Miller.

## Drugs can affect unborn

Is your baby a drug addict? Does your baby use alcohol, caffeine, nicotine or any other drug? If you are pregnant or a nursing mother and using these or other drugs, your baby is a user too! Using drugs while you're pregnant or nursing will affect the development of your child's brain and nervous system. Give your baby a healthy start, don't use or abuse.

This message brought to you by

the Jefferson County Council on Child Abuse Prevention. "People working to keep families together."

## Trivia

Over 65 percent of the world's population goes through the day without coming in contact with a newspaper, radio, television or telephone.

## Thanks for taking the time

To family and friends,

I was in a serious vehicle accident in which I was a passenger. I spent a whole month in St. Charles Medical Center. I'm currently in a nursing center until I'm able to walk again. Thank God no lives were taken.

I would like to thank all my family and friends that have given me such great support. Since the accident I have received many beautiful gifts and cards. Most of all MORAL support from family and friends. So far away, yet so near in heart. Thank you for putting love back in my heart and a smile on my face.

It's great to know that family and friends take time out, because they care. Especially when I feel like I'm all alone. It's people like you who make my loneliness and pain disappear. Bless your hearts.

I would like to dedicate this poem I wrote myself. Called: BLESSED ARE FRIENDS

To have that loving care full of kindness and knowing its true

To have such a blessing when we are so far apart.

For near and far are few friends like you

It's a blessing for love to be in your heart

by Jessica Gilbert

## Talent, patience increase

To the Stars,

Hey girls, I had an enjoyable season with all of you. You girls showed me two things this season, 1st-that you had the talent for softball; 2nd-that I had the patience to work with you. But I could not have done it without the help of the following people-Alex Tulti, Joni David, Fritz Miller and Elton

Greeley. Thank you for being there when I needed the help.

Keep up the good work and I hope to see you girls next season. Have a good and safe summer.

I love you all and will be thinking of you.
