

Colleges in Oregon listed

Colleges in the state of Oregon generally fall into two categories: state supported colleges and universities or independent colleges and universities.

State supported colleges and universities are either two- or four-year schools. The two-year schools are called community colleges. They offer a variety of special vocational training programs as well as college transfer programs.

State supported colleges and universities include Eastern Oregon State College (LaGrande), Western Oregon State College (Monmouth), Oregon Institute of Technology (Klamath Falls), Oregon State University (Corvallis), Portland State University (Portland), Southern Oregon State College (Ashland), University of Oregon (Eugene), and Health Services Center (Portland).

Community Colleges in Oregon are Blue Mountain (Pendleton), Central Oregon (Bend), Chemeketa (Salem), Clackamas (Oregon City), Clatsop (Astoria), Lane (Eugene), Linn-Benton (Albany), Mt. Hood (Gresham), Portland (Portland), Rogue (Grants Pass), Southwestern (Coos Bay), Tillamook Bay (Tillamook), Treaty Oak (The Dalles), Treasure Valley (Ontario), and Umpqua (Roseburg).

Independent or private colleges and universities may be either two or four year institutions. They traditionally cost more to attend, but cost differs from school to school.

These colleges include Basist College (Portland, two-year), Columbia Christian College (Portland, four-year), Concordia College (Portland, two-year), Eugene Bible College (Eugene, four-year), George Fox College (Newberg, four-year), ITT Technical Institute (Portland, four-year), Lewis and Clark College (Portland, four-year), Linfield College (McMinnville, four-year), Marylhurst Education Center (Marylhurst, four-year), Mt. Angel Seminary (Mt. Angel, four-year), Multnomah School of the Bible (Portland, four-year), Northwest Christian College (Eugene, four-year), Pacific Northwest College of Art (Portland, four-year), Pacific University (Forest Grove, four-

year), Reed College (Portland, four-year), University of Portland (Portland, four-year), Warner Pacific College (Portland, four-year), Western Baptist College (Salem, four-year), Willamette University (Salem, four-year).

Two basic programs are available at a community college. One is the College Transfer Program in which students are enrolled in courses that can be transferred to another college for completion of a four-year degree. The other program is the Certificate or Associate Degree. Students in this program may complete programs in three months to two years depending on the program.

Four-year colleges and universities offer two basic degrees. The Bachelor of Arts and Bachelor of Science are awarded for the completion of a four-year program.

Apprenticeship programs are also available through Oregon schools. Most apprenticeship programs are three to five years in duration and usually require experience in a trade before entering into the apprenticeship training program. Popular apprenticeship programs include bricklayer, carpenter, cement finisher, construction electrician, construction iron worker, floor coverer, lather, painter, plasterer, plumber/steamfitter, sheet metal worker, tile setter, machinist, mechanic (auto and diesel), operating engineering, tractor and heavy duty equipment mechanic, boilermaker, electrician (manufacturing), iron workers (shop), millman, cabinetmaker, molder, coremaker, patternmaker, appliance repairer, baker, cook, radio/TV repairer, printer, meatcutter.

Plan your career

Career planning is setting short and long-term goals and then developing a plan to reach them. Career planning can stop you from stumbling into a dreary occupation. If you take the time to plan your career, you have a better chance of making your work a rewarding experience.

Career Planning Steps—

- Step 1: Self Evaluation
 1. Inventory your interests
 - a. Career Occupational Preference System
 - b. Career Information System (Quest)
 2. List your aptitudes and abilities
 - a. Armed Services Vocational Aptitude Battery
 - b. Career Ability Placement Survey
 3. Determine your values
 4. Describe your personal characteristics
 - a. What are you like as a person.
 - b. What kinds of people and environments are you comfortable with.
- Step 2: Establish Career Goals
 1. Make a list of all the goals you desire to accomplish in your lifetime that relate to your career.

2. Write your goals for the next five years.

3. Develop one-year projects.

Step 3: Select Activities

1. Research careers that interest you.

2. Set up your own board of advisors

3. Seek the services of your counselor for career guidance.

4. Take classes that relate to your career goals.

Hot careers of the decade 1984-1995

1. Paralegal personnel; 2. Computer programmers; 3. Computer systems analysts; 4. Medical assistant; 5. Data processing equipment repairers; 6. Electrical and electronics engineers; 7. Electrical and electronics technicians; 8. Computer operators; 9. Peripheral electronic data processing equipment operators; 10. Travel agents.

The worst outlook for the decade 1984-1995

1. Stenographers; 2. Shoe sewing machine operators; 3. Postal clerks; 4. Clergy; 5. Composers and typesetters; 6. Graduate assistants; 7. Servants; 8. College teachers; 9. High school teachers; 10. Farm laborers and operators.

MHS students achieve honor roll

The first quarter honor roll at Madras High School for the 1989-90 school year includes the following students:

Freshmen

4.00 Honor roll
Bradley Collins, Scott Delamarter, Krista Galyen, Jeremy Jasa, Gary King, Nathan Pollard, James Sites

All Star Honor Roll

Carrie Burtis, Chad Casady, Darin Earnest, Spencer Gerke, Merrissa Grimm, Jessica Jacks, Heather Martin, Cristine Orcutt, Jason

Potampa, Emily Ray, Jennifer Runge, Ofelia Santos, Susan Skavlan.

Honor Roll

Rosalee Apphans, Shane Barnes, Kathryn Bozarth, Tyler Campbell, Gina Camphouse, Diana Cavalli, Chandra Chard, Heather Clowers, Teri Courtney, Philiana David, Bridget Elliott, Niki Forman, Carla Hileman, Kevin hopps, Pamela Jasa, Nathaniel Johnson, Laura Jones, David Lange, Audra Lyon, John Maben, Alyssa Macy, Brandon May, Ashley Morlan, Julie Morse, Thomas Norton, Cariann Oliver,

Sara Olson, Shawn Phifer, Tami Rask, Heather Stracner, Heidi Stephens, Leif Suppah, Angela Thomas, Raelynn Waldow, Stormy Weathers.

Sophomores

4.00 Honor Roll
Kimi Buslach, Margie Durette, Joel Neilson, Jennifer Samsel, Juanita Wickham.

All Star Honor Roll

Melinda Casady, Shahin Henrickson, Kelly Jackson, Anne Jasa, Erika Luce, Crystal Thurman, Continued on page 8

Entrance requirements vary for state colleges, universities

Entrance requirements for state system institutions (4-year colleges and universities)

Grade Point Average

The general entrance requirement to enter state system institutions is graduation from an accredited high school with a satisfactory grade point average. Individual schools vary as to what GPA is required: 3.00 University of Oregon; 2.75 Oregon State University and Portland State University; 2.50 Southern Oregon State College, Western Oregon State College, Eastern Oregon State College and Oregon Institute of Technology.

Admission Tests

Almost all four-year colleges and universities require incoming freshmen to take a College Entrance Examination; either the SAT or ACT. These tests are an indication of your preparation in English and Mathematics. You receive a verbal and math score. The two scores added together give you your SAT score. An additional part of the SAT tests your knowledge of Standard Written English. The Test of Standard Written English is very important to some institutions. The U of O and SOSC require a minimum score of 30 on the SAT-TSWE or 15 on the Enhanced ACT English subtest. The SAT is given during the months of November, December, January, March, May and June. The closest test site is Bend. The ACT is given during the months of October, December,

February, April and June. Students should see their counselor for the exact test date and application. The Madras High School code number is 380620. The code number is used in filling out the SAT application and the Financial Aid Form. There are several good study guides available to help prepare for the SAT.

Subject Requirements

Students must satisfactorily complete 14 units of college preparatory work in the following subject areas: English (4 units); Mathematics (3 units, at least through Algebra II); Science (2 units); Social Studies (3 units), other college prep (2 units, this may include a foreign language, which is highly recommended), computer science, fine and performing arts and/or an advanced vocational-technical course.

Admission application deadlines and priority filing dates:

- U of O—Application postmark deadline: March 1, 1990.
- Architecture and Interior Architecture: January 15, 1990.
- Landscape Architecture: February 1, 1990.
- WOSC—Application postmark deadline: April 1, 1990
- OSU—Application postmark deadline: May 1, 1990.
- SOSC—Application priority filing date: June 1, 1990.
- OIT—Application priority filing date: June 1, 1990.
- PSU—Application postmark deadline: July 1, 1990.

EOOSC—Application priority filing date: August 1, 1990.

Tuition and fees

The admission application fee, which must be included with the student's application, has increased and it is now different between the colleges and universities. For OSU, PSU and U of O, the fee is \$40. For EOOSC, OIT, SOSC and WOSC, the fee is \$35.

Community Colleges

Community colleges have an open door policy and do not have a subject or GPA requirement. However, they do have an admission testing policy. Community colleges administer their own admission tests. It is similar to the SAT in that it measures verbal and math skills and is used for placement purposes. Community colleges must be contacted individually for their admission testing procedures.

Service academies or ROTC programs

The young man or woman who is physically fit, above average in intelligence, competitive and can conform to a rigid daily schedule and strict discipline might consider admittance to a service academy. Realistically, you should have begun your application to a service academy in the spring of your junior year. If you did not however, you must see your counselor before the end of September. There are physical, medical and aptitude tests to be taken, in addition to the SAT. Admission to service academies is by appointment only. It costs

nothing to attend and you are paid while in the academy. Each cadet receives his or her education at government expense.

If you are not interested in a service academy, you might consider the Reserve Officer Training Corps Programs. Thousands of students yearly get the majority of their college education paid for through ROTC scholarships. A student who receives a four-year ROTC scholarship gets full tuition and fees and \$100 a month stipend. While in college, students generally major in the field of their choice. Three days a week will be spent in military science classes. At the end of four years, they receive a degree as well as a commission as an officer in the branch of service they selected. During the summer while enrolled in college the student spends part of a summer at a military base. The Army, Navy and Airforce have ROTC programs. The SAT and ROTC applications must be submitted prior to December 1 of a student's senior year. High school counselors have specific details about ROTC programs.

Items to consider before selecting a college

1. What are the means of admission?
2. How many women are enrolled? Men?
3. Are there many students from other countries?
4. What is the student/teacher ratio?
5. What academic programs or

areas of study are emphasized?

6. What are the housing regulations and what type is available?

7. What cultural and recreation opportunities are present in the area?

8. How approachable are members of the faculty and administration?

9. How complete is academic advising and how available is the academic advisor assigned to a student?

10. What level of academic performance is required to stay in school?

11. Can qualified upperclassmen transfer to professional schools with the pre-professional programs offered?

12. How wide is the range of activities in political, athletic and

extracurricular?

13. What kinds of general regulations are there for students?

14. What special interest groups are active on campus?

15. What kind of laundry and shopping facilities are available?

16. Can a student chose his/her own roommates?

17. How complete is the health center?

18. How much is it going to cost to go there?

19. What types of financial aid are available?

20. What kinds of jobs are available for college students?

21. Does the school have special ways students may pay the costs to attend?

22. Does the school provide job placement for graduates?

The Second-best hug in the world.

There are a lot of hugs in the world. Like a happy hug when mom bakes chocolate chip cookies.

What is the second-best hug in the world?

A safety belt. Because it hugs you and keeps you safe when you are in the car.

And hugs just because you love someone.

These are all the best things in the whole world.

Buckle up everyone, you care about

Dear Mom and Dad,
All the law in Oregon that kids under 10 must wear safety belts. Please make sure I always wear mine and please wear yours too, so we will all be safe and happy.
