## "Spilyay Speaks"

**VOTE, VOTE, VOTE!**

Looks like we'll have to do it all over again. A special election on two resolutions passed by the Tribal Council, which they felt is in the best interest of the tribes. Just recently we had an election on these two issues, one is to build 20 living units and the other is the wellness clinic. For some reason or another there wasn't a very good turnout of voters. There were only 372 concerned Tribal members who made it to the polls to cast their ballots but that was 149 votes shy to be valid. So now is the time for you to voice your opinion and get out and vote. Vote on the issue even if you are against or for the issue. The Tribal Council needs your participation on these matters. This is your reservation and the funds you are voting on one way or the other is important. Perhaps the issues were not explained clearly enough. I'll try to explain the best I can omitting all the "Whereas, therefore's and all that stuff."

At the present time the Indian Health Center is not adequate to handle all the needs of the tribes population. Also at the present time there is no plan in the Indian Health Service to build a new clinic, which means that it might take 20 years or so before they might get around to building a new one. The Tribal Council feels its best to go ahead and construct a new clinic using Tribal funds and borrowed funds. The projected cost of the new facility would be \$4,900,000, of which \$1,225,000, would be provided by Tribal funds and the remainder of \$3,775,500 financed through non-tribal funds such as grants, loans or bond issues.

The other issue that needs tribal members' attention is the construction of 20 single family homes of 3 and 4 bedrooms. Housing is one of the greatest priorities here and with the 20 new units would relieve some of the housing shortages here. These 20 units to be built at the Tenino Apartment subdivision.

At a Tribal Council meeting on June 11, 1990, it was decided that another election will take place on July 10, 1990. Remember an election is not valid unless there is more than one third of the total voters who turn out.

So now is the time to be thinking on which way you are going to vote on July 10, 1990, either for or against the issue. Remember the Tribal Council is trying to do the best for the tribes and they need your input on matters such as this. "Ah-Nah-Chi-Toon"
