"Spilyay Speaks"

Everyone knows that things are not always right or at the best of conditions at all times. And that we have to take the bitter with the sweet. And when problems arise we should all stick together and try to find the best solution possible.

This has been a critical year...not only for personal reasons but for the Tribes as a whole. We may have come up on the short end but let's face it, this is not the end of the world, we have survived in the past and we can do it again.

Just recently because of the misfortunes of the tribes there have been some abusive reporting by ignorant individuals printing stories in the papers of what the tribes have done to these people. Ignorant not because of the lack of education but from the source of information obtained. There are always two sides to each story, and a lot of positive information could go along with the bad, but what the outside reporters are interested in is selling his article and can only see the bad things against the reservation as a big selling tool because to him "Bad News" is good news.

"Man this sure is a mixed up world." Just think a hundred years from now I can look back and say, "There were some mixed up people in those days and I'm sure glad the whole thing is in the past." And we can look further into the future.

For certain this Column is not from Mr Know-It-All, it's just an opinion on certain issues of concern among the Tribal Membership, and to create an avenue for further discussion on the matter for a better understanding of what's taking place.

There has been some controversy on issues that have been printed in this column both Pro and Con, people can agree or disagree with what's said in this column and that's just fine, but what satisfies me the most is, it's being read. There have been responses on certain issues in the past from individuals regarding what has been mentioned that were not addressed, mainly because these articles were for their concerns and for them to address others where they may find a better solution for their satisfactory. All I'm interested in is to bring them out for people to consider, because most of the issues mentioned in the past have been mostly from on the street talk where some individuals are not willing to step forward and express themselves but yet want these issues to be addressed. "AHH-NAHH-CHI-TOON!!"

Happy Birthday DADDY
We love you lots and a whole bunch too!

COCC needs volunteers

This year COCC Classes are bursting at the seams with students at the Adult Learning Center and volunteers are needed now to help young adult tribal members who are studying to earn their GED or high school diploma.

Volunteers are needed who can donate a two or three hours a week working one on one with students to provide encouragement and assist them with their reading, writing and math. Volunteers are also needed to help assist with testing and evaluation of students.

Volunteers will receive training to help them learn how to be effective tutors. Training is scheduled in Warm Springs on Monday, February 3 from 12 noon to 4 p.m.

People are needed to help in the classrooms on Monday and Wednesday evenings, and Tuesday, Wednesday and Thursday mornings. If you can help on any of these days, please call the Adult Learning Center at 553-1428, or stop by the office at the Old Boys Dorm.

Photos wanted

The Warm Springs 1910 Indian Shaker Church is looking for photos of past members and of the building to include in their Easter booklet. Photos of the old church at Brunoes would be enjoyed as well. The Shaker church will soon celebrate its 40th anniversary in its current building.

Thanks in advance,
Peggy Poitras
