

Transportation available for disabled American Veterans

The Disabled American Veterans (DAV) organized a nation wide transportation net work to provide transportation for all Veterans requiring medical care to and from the V.A. Hospital. This van is part of a transportation net work all the DAV van drivers are volunteers and do not receive payment for the services they provide. There is a request for volunteer drivers from the Warm Springs area.

Rules and regulations have been established by the Department of Veterans Affairs and the DAV National Headquarters...not by the van drivers. To reserve a seat on the van contact the coordinator at 383-2647 at least 48 hours in advance of appointment. Appointment time should be between 10:00 a.m. and 2:00 p.m..

The coordinator can assist if the appointment needs to be rescheduled due time. Veterans without appointments may ride the van on first come first serve basis. Remember to call the coordinator to see if space is available. For further information about rules and regulations on DAV van contact Dan Dunlap at 1-800-949-1004, ext. 6957.

Plan your childs future, send them to school today

To our Community, Please, we need everyone's help in supporting our students of Warm Springs to be successful in life. Did you know — that your child's attendance pattern is set in kindergarten? Did you know — that 1/3 of all Warm Springs kindergarten students missed at least one month of school last year? Did you know — that if your child misses one month of school a year,

by the time he's a freshman he'll be one year behind? Did you know — that every drop out at Madras High School has missed an average of 20-30 days of school a year? Plan your child's future! Plan for your children to graduate!

Send them to school today! Education Program Tribal Education Committee Title V Committee J.O.M. Committee 509-J School District

There was no excuse

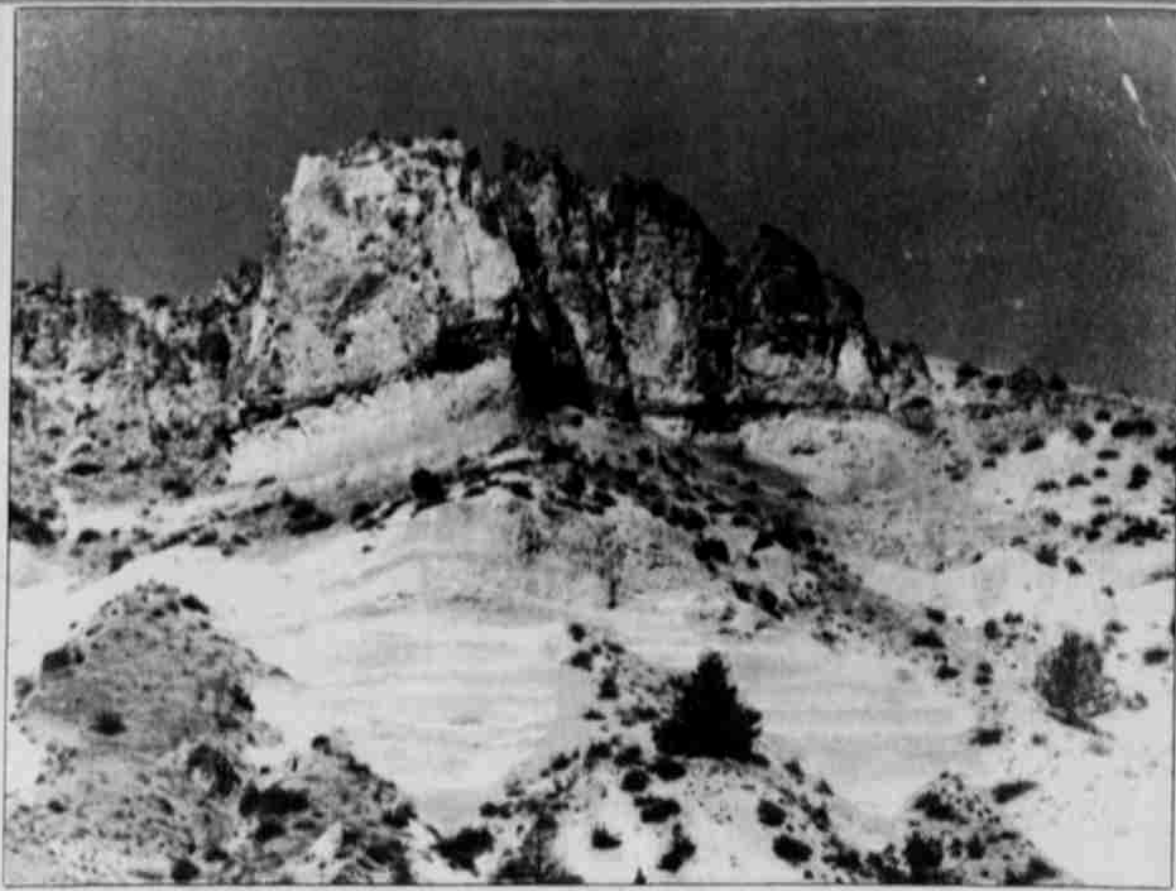

To the editor, I am writing this letter of apology to the members of the community for my unthoughtful acts of driving under the influence in December on the 19th at midnight. There was no excuse for this. For that I am sorry.

On Patrol

By Don Courtney

With one month already behind us, the following statistics were compiled by the Police Department: Assault & Battery, 13 cases; Assaults, 6 incidents; Agency Assists, 30 cases; Breaking & Entering, 2 cases; Child Neglect/Abuse, 10 investigations; Citations issued, 125 total; Curfew violations, 5 juveniles; DUI's, 7 cases/Average BAC .24%; Drugs, 14 arrests; Minor in possession, 13 arrests; Juvenile in possession, 13 arrests; Motor Vehicle Crashes, 29 (4 alcohol related, 5 pp injured, 1 fatality.) **Stolen Vehicle nets arrest:** A female juvenile and an adult male were arrested on February 20, 1993 for possession of a stolen vehicle that was recovered at the Eagleway apartments. Police intelligence was received by the Warm Springs Police Department from the Klamath County Sheriff's Office on a reported stolen 1993 Ford Probe that had suspicious Oregon plates on the vehicle in an attempt from drawing attention to

the vehicle or it's occupants. Also provided were three suspects listed in connection with the vehicle being stolen along with information that the suspects were considered armed with a small caliber handgun who made comment about coming to Warm Springs area and of shooting a police officer. While patrolling the Eagleway Apartment area, local law enforcement discovered the vehicle parked in the north parking lot. With the assistance from a local citizen, officers were directed to an apartment where on further investigation, the two suspects were arrested. On inventory search of the stolen vehicle, clothes and personal effects including identification were found along with a large quantity of suspected stolen checks. No weapon was turned up in the search, it is believed that the weapon if located might still be in the possession of a third suspect who is still at large. Any information leading to the location of the third suspect should be directed to the WSPD. It is not known whether this third suspect is still in the community. On confirmation with Klamath County, the checks were apparently stolen from a burglary of recent past. Both suspects were lodged temporarily at the Warm Springs jail who were then transported to the Jefferson County Sheriff's Office. On a check of the adult male, it was discovered that the suspect was wanted on two outstanding warrants; one for Theft in first degree with a \$25,000 bail set and the second for Escape with a \$5,000 bail. The stolen vehicle was impounded at Ira's Wrecking & Storage in Madras. **Loose dog's in the Community:** Warm Springs seems to be faced with an animal control problem that has many area residents and police officials concerned. Of most recent, a Pit-bull recently

attacked dogs on two different occasions in the campus area that left both dogs in shock due to injuries sustained from the attack. Officers along with Fire & Safety officials spent over an hour attempting to catch the animal before it eluded them into the Miller Heights area. In another related incident reported, officers spent nearly an hour attempting to capture the dog for further investigation and possible owner identification without success. Owners of dogs must remember that it is not acceptable to let your animal run loose where it becomes a nuisance and safety risk to the community. Ordinance 36 - Dog Control (summary enacted - April 30, 1962) Section #1 - Definitions: Dog: Any canine animal 6 months of age or over. Cat: Any domestic feline. Owner: Any person or persons, firm, associate, or corporation owning, keeping, harboring, or controlling a dog. At large: Any dog off the owners premises and not under control of the owner or member of the owners immediate family either by leash, cord, chain or otherwise. Stray: Any dog not having an owner. Rabies Vaccination: The injection subcutaneously or otherwise of canine anti-rabic vaccine as approved by the Oregon State Department of Agriculture and/or by the Department of Health, Education, and Welfare, Public Health Service by a licensed veterinarian or at an approved public clinic which may be established for this purpose. Section #2 License required each year. Section #3 Rabies vaccination required. Section #4 Collar for ID & rabies tag. Section #5 Dogs in heat, fierce, dangerous, vicious or a nuisance to

the community will not be permitted to run at large whether licensed or unlicensed. Section 36 Confinement of a dog which has bitten someone. Must be confined for 10 days at the owner's expense. Section #7 Violation of Provisions; animal will be seized, confined, and held for 5 days with the exception of section #6. If no one steps forward to claim an animal, it will be destroyed. Section #8 Quarantine of confirmed rabies animal, minimum of 60 days. Section #9 License and registration fee \$1.00 per year. Section #10 Possession of Certification (registration & rabies vaccination). Section #11 Refusal or failure to pay license or impoundment fee could be declared as abandonment of the dog by the Tribal Court. Section #12 Owner Violation of Provisions; you may be deemed guilty of a misdemeanor and upon conviction, subject to a fine up to \$25.00 and/or 10 days jail. Officers have again begun rounding up the animals which are found with no identification and running loose in the community. In the event no identification can be made, the dog may be taken to the Jefferson County Pound where following a waiting period for owner identification or a new owner adoption, the animal will be put to sleep. **From the Captain's Desk:** With the winter season still here, it is not uncommon to see kids out and about that forget about their own safety when playing outdoors. As motorists in the community, please remember to drive extra careful around children who might not know that you are around. Safety concern, with the cement concrete barriers in place along Hollywood, officers have noticed on many occasions children and sometimes adults walking along the top of the barrier. This in mind, please remind your children as well as your fellow adults that the cement barrier is for everyone's protection while driving or walking along Hollywood Boulevard. It would be a tragedy if they happen to fall off the wall into traffic. With the new year passing it's second month, Officers for the Police Department have been again reminded of our service responsibilities to this community. We are dedicated to this profession to see to your needs when it comes to the protection of life and property. We are here to serve you and as such, I have asked that each officer spend more time getting to know the community they are serving. Don't be surprised or take offense when an officer approaches you just to talk. We need to hear your concerns, problem areas, or suggestions on how we can better serve you. Thanks again for your support. **Fish & Game Report:** The Fish & Game division has been working around the clock to ensure the safety of our natural resources. However here within the past month, two cases have come up that stand out among the others we are working on. One case involved two tribal members and one non-tribal member, they were caught as they came out of an area that they are alleged to have shot a calf and cow elk. The elk were taken as evidence along with the weapon used. The tribal member's were cited to appear in tribal court for the taking of the elk and the non-member was arrested by the Oregon State Police who aided the locating the suspects. The non-member was arrested on statewide warrant for other reasons.

What led to the arrest was that the OSP officer who was patrolling the opposite side of the Deschutes river happen to spot the three male suspects fishing near the South junction. Following more observation, he spotted what appeared to be a non-member also fishing on the reservation and called the WSPD. Local Fish & Game officers along with the OSP officer responded to the area where the suspects were not located. A single set of vehicle tracks in the snow indicated that the vehicle was heading north along the river. The tracks followed, officers located the suspects near the Davidson junction where it was observed that the suspects had elk in the back of their pickup truck. Following the identification process, the suspects were cited accordingly. In another case of a ceremonial hunt that took place off the reservation, three male were contacted by officers of the OSP. Following further investigation, an illegal kill of a buck was discovered along with the ceremonial deer. Due to the reserva-

tion ties with the other assisting enforcement agencies, this case was also entered into the tribal police records for further action to be taken by the Prosecutor's office. It is suggested that if you are a hunter, you follow the rules of the hunt and/or of fishing to ensure you will not be accused of a violation. Our natural resources are vital to us, we understand the need for the use of them and the fact that it was not too long ago that tribal members on the reservation did not have a season on hunting issues. But it must also be remembered that it was also a good time then and the deer population was plentiful. With the changing times comes a set of rules to abide by in order to let the resources, such as deer and elk, time to regenerate into that population that our elders use to see. There were a total of 103 contacts made out in the field for the month of January with 40 individuals found in violation. Of those in violation, 26 citations were issued, 19 ended with a warning, and 4 people were arrested.
