Editorial **E Coosh EEWA:** (The way it is)

Letters to the Editor

During the campaign trail for the Presidencey of the United States, Clinton made some big promises to the voting public. Now half of the year has elapsed there are many things need answering. There was ideas for a jobs bill, and education bill, a settlement of the forest descrepencies here on the west coast and on and on.

Well like they say, "Everything isn't all Glitter, Glamor and Gold!" Take the education problems for instence. Many schools have to make cuts in certain areas in order to operate for the coming year. Some of the first things hit are the extra curricula activities such as sports, some jobs and school bussing.

What is it with all the people now days? There never was problems such as this in the past. Perhaps it all boils down to: "I've got my education, and all set up in business, so all you kids can go jump in a lake!" To make a budget work people feel that athletics can go, yet they don't realize thats one of the main subjects any school should keep. School bussing is another thing that's under the axe all the time."

Let's take a look at bussing and athletics. For one thing on school bussing is the wear and tear on the school busses, the maintenance is the main problem there, so if they cut bussing that would save a chunk of money. Voters feel that kids can find their own way to and from school. "Well, in the OLDEN Day's, I guess kids used to ride. "OLD Nellie," to and from school, or walk for miles in all kinds of weather, and feel kids can do that now," But in this day in age we don't have that caliber of kids, some of them don't know how to feed themselves let alone walk to school. To the voters now days is like, "I have my education and all set up in business so why should I worry about you kids today, so you can go jump in a lake." Voters also feel that athletics are not needed in schools and can go, probably because in their days they had to go home and slop the hogs and stuff like that for their living.

Yep! they don't realize how important athletics are for the children,

And if that dosn't mean anything we might as well give up. What can they, the leaders learn from Music? Sing pretty tunes without meaning and full of lies. To the editor,

A very special thank you to "Bullneck" for the loan of ten horses and for him leading the parade and offering the welcome speech. Volunteers that rode in the parade, Joe Tuckta and his family, Reggie and grandson, and to my daughter Charli for doing the Lord's prayer.

I received feedback from many guests after the parade and they just raved about the parade, hoping to see it offered more.

Again thank you all very much for making it a wonderful weekend for many people.
