Notification appreciated when appointments can not be kept

We are always ready and willing to help a customer with a problem. We know everyone's schedule is different, but because of the limited hours of our legal services, it would be most appreciative, when you cannot keep your scheduled Tribal Attorney appointment, on Tuesday afternoon, in the Administrative building, that you give an

advance notice to us to reschedule an appointment or just cancel. Please be considerate to other Tribal Members that need an appointment with us. Call us at 553-3212 or 553-3213 to reschedule. Let's work together to keep these legal services on a timely basis.

Thank you.

HIV Testing at the Health and Wellness Center

In these days when HIV/AIDS (Human Immunodeficiency Virus)/(Acquired Immunodeficiency Syndrome) are in the forefront, people are faced with looking at their own personal lifestyles and practices.

FACTS
1) HIV is the virus that causes AIDS. 2) A diagnosis of AIDS may occur 1 to 10 years after infection by the virus. 3) HIV/AIDS is recognized as a sexually transmitted disease. 4) You can protect yourself from this deadly virus. 5) We emphasize safe sex practices and discuss ways to prevent blood to blood contact. 6) Some clients are simply curious and would like a test, perhaps due to having multiple sex partners in the past. 7) HIV testing is offered to anyone with a diagnosis of a sexually transmitted disease, to those entering drug or alcohol treatment programs and to pregnant women. 8) The HIV test is strictly voluntary. 9) Test is CONFIDENTIAL. 10) HIV Test results are not given over the phone. 11) Nurses or Primary Providers (Doctors, Physician Assistants or Nurse Practitioners) must counsel clients who request testing.

Counseling is an important element to assess the clients knowledge and understanding of the disease and personal risk factors. An appointment within one week for follow-up post test counseling is also necessary. At this session, the nurse or provider discusses the results, reviews risk factors and assesses whether further testing is necessary.

If you have any question or requests for specific information in future articles, please contact Christine Burnell, R.N., HIV/AIDS Coordinator at the Warm Springs Health and Wellness Center, 553-1196 Ext. 4632.

Radio Help--Continued from page 5

Pacific in 1985, as a means of providing communications between the scene of an emergency and agencies responsible for providing

such services.

Since inception, RADIO HELP has expanded to include more than 225 private companies, public agencies and other utilities throughout the western United States, all willing to offer communication in an emergency-be it major or minor.

"Both KID KARE, for Pacific Power vehicles only, and RADIO HELP, for a growing number of organizations throughout the west, are symbols of a commitment to serve the public," McConnell point out.

Be prepared for power outages

As the weather begins to show us that the long, hot summer is really over, Pacific Power reminds area residents that it's time to review preparations for the possibility of an unexpected interruption in electrical service.

"Although we make every effort to provide reliable service no matter what the weather, the best way to handle the unexpected is to be prepared," manager Bob McConnell said.

The following items should be

part of your winter emergency kit: 1) a flashlight, with fresh batteries 2) candles, holders and matches 3) a battery operated radio and windup or battery powered clock 4) some food that doesn't need heating 5) and extra supply of fresh batteries.

If the light do go out, McConnell suggested the following: 1) keep doors to refrigerators and freezer closed as much as possible 2) keep candles away from draperies or other flammable materials 3) cook on a camp stove or barbecue only

outdoors 4) if you own a generator, use it to power specific items, not the entire house.

When calling Pacific to report an outage, please let the customer service representative know if your lights are out or just dim, whether your neighbor's lights are on and if you can see any damaged poles or downed wires nearby. Also, it's helpful to leave your porch light and one indoor light on, so you and repair crews will know when service is restored.

Legal Notices

Jose Alvarado
Petitioner
vs.
Nadine Mitchell-Alvarado
Respondent
Summons For Publication
Case No. J138/131-94
To Nadine Mitchell-Alvarado

You are hereby notified that a petition for Conservator/Guardian has been filed with the Warm Springs Tribal Court.

By this notice you are summoned to appear in this matter at a hearing scheduled for 4:00 p.m., on the 26th day of October, 1994, at the Warm Springs Tribal Court. All of the facts of the case will be heard at this hearing, including evidence you wish to present.

You must appear to present your argument or the other side will automatically win. The Petitioner, Jose Alvarado may then be given all that is asked for in the petition for Conservator/Guardian.

The Petitioner will be present at the hearing. If you desire to personally argue your side of the case, you may have a legal side, spokesperson or attorney appear on your behalf at your expense.

If you have any questions, you should seek legal advice immediately.

Become a well-informed consumer

Smart consumers are informed consumers. And the US Office of Consumer Affairs invites you to become better informed during National Consumers Week 1994, October 23-29. Use the following checklists to improve your health, inspect your car, clear your home of hazards and organize your finances. See how many of these simple, practical tips you can check off during National Consumers Week.

ΔHave Your Cholesterol Checked

Keeping your cholesterol level in the "good" range reduces your risk of heart disease. Whether you need to bring yours down, or keep it at the current level, eating healthier makes sense for everyone.

ΔRead labels. The new food labels are easy to understand, and provide valuable information on the amount of fat, cholesterol and number of calories in each serving.

ΔEat foods lower in fat, especially saturated fat.

ΔWatch the amount of cho-

lesterol you eat. Foods such as egg yolks, red meat and whole milk are very high in cholesterol.

ΔSubstitute low-fat, low-cholesterol alternatives. Drink skim milk instead of whole, use egg whites without the yolks in recipes, and try frozen yogurt instead of ice cream.

ΔPrepare Your Car or Truck for Winter

Give your car a simple, but complete, preventative maintenance checkup; it may be the difference between getting home safe and warm, or being stranded in a frozen parking lot.

ΔMake sure all fluids are filled to the recommended level—oil, antifreeze, windshield washer, transmission fluid, etc.

ΔRemove corrosion from your battery terminals and connections with a wire brush.

ΔYou'll be using your windshield wipers a lot, so make sure the blades are in good shape. If they're hard, cracked or worn, invest in a new pair.

ΔInspect your tires for tread wear or damage, and check their air pressure with a tire gauge. Proper inflation improves gas mileage and increases traction and stability.

ΔHave a rough-running engine looked at by a trained technician. Problems starting or keeping your engine running will only worsen as the temperatures drop.

ΔCheck Your Home for Hazards

Many dangers, seen and unseen, can be lurking about your home. Don't take chances; protect yourself and your family by finding and correcting potential hazards.

ΔTest for radon, a potentially harmful radioactive gas with no color or smell. Simple, EPA-approved radon test kits are available at many hardware and retail stores.

ΔCheck your smoke alarms.

When was the last time you replace the batteries? If it's been more than a year, get to it. Changing them on a significant date, like a birthday or holiday, makes it easier to remember next year.

ΔInspect your home for electrical hazards. Art cords and plugs in good shape? Are any outlets overloaded? Do lamps have the proper size and wattage bulb?

ΔGet Your Finances In Order

With the holidays quickly approaching, what better time to get your bank and credit accounts in order.

ΔBalance your checkbook; it's the logical place to start.

ΔFind out what interest your checking and/or savings accounts are earning, and if you're paying fees to ATM transactions. Consider changing banks if you can get a better deal somewhere else.

ΔReview your credit report for errors. There may be a fee unless you've been denied credit in the last 340 days. If that's the case, the reporting agency will provide one report free of charge.

ΔConsider buying US Savings Bonds. Not only are they great investments, but because they're backed by the federal government, they're risk free.

Return basket

LOST: My great-grandmother's huckleberry basket. Last seen when picking berries up at High Rock with Keith & Susan Moody. It has dark brown stair steps designs and has green and white ribbon for tying around the waist. Please return my great-grandmother's basket, no questions asked.

I apologize

To the community:
I apologize for operating a vehicle under the influence of alcohol back on May 15, 1994. I could have put myself, or others in danger.

Sincerely,
Leslie Squiemphen
