Start the Games

With scissors in hands, Chief Delvis Heath, Tribal Council Chairman Mickey Brunoe and Council member Jacob Frank cut the ribbon to officially open Indian Head Gaming Center.

Watch for powerlines when working outside

It happens about this time every year. The days get longer, the sun comes out more often and new construction begins to pick up. Construction crews start putting in longer hours and fatigue prompts otherwise safety-conscious workers to take chances they might otherwise never consider. Someone swings a crane into an overhead power line and is seriously injured or worse.

Every year, just about now, Pacific Power reminds construction workers to watch for overhead wires when moving equipment, installing scaffolding, raising pipes and ladders, or doing any job where contact with high-voltage lines is possible.

"It's something we think about every day. We talk about safety with our line crews. And we hope other companies who work near overhead wires are talking with their employ-

ees, about the need to think about the dangers of working safely," General Business Manager, Bob McConnell said.

Oregon

Symphony to perform

As part of its annual Meyer Memorial Trust/National Endowment for

the Arts Regional Touring Program,

the Oregon Symphony will visit

Warm Springs on Sunday, June 4, for a performance at the Community

Center at 10 a.m. The concert is part of the Symphony's third annual regional tour, which also features stops

in La Grande, John Day, and Bend

during the end of May and the first of June. Presently locally by Kah-Nee-

Ta Resort, Warm Springs Forest Products, Warm Springs Power Enterprise, the Tribe's Secretary

Treasurer's office and Public Relation's office. The Oregon Symphony will present a light classical/ education concert led by Music Di-

One of the largest arts organiza-

tions in the Pacific Northwest, the Oregon Symphony is an institution

of national repute. The oldest major orchestra in the West, it has been

ranked "first class" by Gramophone

magazine and "a virtuoso ensemble"

that Portland's first symphonic con-

cert took place at Oro Fino Hall, June

15, 1866. Just 21 years after the city's

founding and a little less than 11 years after representatives of the

Wasco and Warm Springs Tribes signed the Treaty of 1855. Ensuing years brought more concerts and several attempts to establish an orches-

tra; by 1875, the first orchestral society was formed, followed by others

It was not until 1986 that the Port-

land Symphony Society was founded.

The first orchestra in the West, and one of only six major orchestras es-

tablished in America before 1900.

W. H. Kinross conducted the initial concert at the Marquam Grand Theater on October 30th of that year. By 1899 the Symphony was giving an annual concert series, and in 1902

embarked on its first tour, to Eugene

and Corvallis, for its first world pre-

of its acclaim since 1980, when James

DePreist was appointed Music Di-

by the Washington Post.

One of the easiest ways to stop an accident before it happens is to provide a look-out on a job where contact with overhead wires is possible. That person's sole responsibility is to watch for danger and stop the job, if necessary, before someone gets hurt.

"Remember, electricity always seeks the quickest route to ground," McConnell said. "And people, metal ladders, irrigation pipes, construction equipment and even shovels are excellent conductors of electricity.

"And also remember, whether working near overhead or underground lines, there's no such thing as working too safely," McConnell concluded.

"I Swear....

Members of the 20th Tribal Council were sworn into office May 1. Story on page 2.

Clements appointed COO by Tribal Council

The newly elected Tribal Council, on Tuesday, May 9, selected Education Branch Manager Mike Clements as the new tribal Chief Operations Officer (COO). Clements was among 12 individuals who applied for the position and among eight who were interviewed; four withdrew their applications

The COO position originated in November 1993 and was initially filled by Ed Henderson in January 1994. However, in February 1995, Henderson was terminated. Ed Manion, already employed as Public Utilities Branch Manager, was temporarily assigned to the position part-time immediately after Henderson's departure. Manion will resume his full-time position next week once Clements has worked out a transition strategy for the

New Chief Operations Officer Mike

Education Branch. 49-year-old Clements has been involved with numerous state, regional and tribal organizations over the past several years. He has worked closely with Affiliated Tribes of Northwest Indians, serving on the board of directors; Oregon Commission on Indian Services as vicechairman and is currently the Chairman for the Board of Directors of Warm Springs Forest Products Industries. After many years' association with the Inter-Tribal Timber Council, Clements just recently received a prestigious award from his peers in that association. Clements withdrew from several organizations due to over-commitment. His work now focuses on local issues primarily concern-

Clements graduated from David Douglas High

ing education.

School in Portland in 1964. He graduated from Eastern Oregon State College in 1973 with a Bachelor's of

Science degree in education.

His tribal work history includes working for the summer work program as director from 1972 to 1975; as program planner from 1977 to 1983; as assistant fiscal service manager from 1983 to 1985, and as assistant secretary/treasurer from 1986 to 1989. He has been education branch manager since 1991. He also worked as a counselor and coach for the Jefferson County School district from 1973 to 1977. He was self-employed as president and CEO of

Tenino Industries from 1989 to 1991.

As COO, Clements will be responsible for six branches: Education, Public Safety, Economic Development, Human Services, Natural Resources and Public Utilities. There are approximately 600 employees in those branches.

As COO, Clements will report directly to Tribal Council. He will direct and control all tribal operations, except those reporting directly to the Tribal Council and the Secretary/Treasurer. He will integrate plans, budgets and practices of all tribal operations to ensure they contribute to the overall goals and objectives of the Confederated Tribes.

Clements is married to the former Maxine Langley. They have two adult children and four grandchildren.

Clements considers the COO appointment a "real challenge.... This is an opportunity for me to help put together a quality organization."
