Final biographies of Fire Management Engine crew members

Thomas R. Williams
 Hi my name is Thomas R. Williams. I am an enrolled member of Warm Springs Indian Reservation of Oregon on my mom's side Harriett Schoolie Williams. I'm also half Chiloquin Modoc on my Dad's side, Hilbert Williams. Hilbert also worked for Fire Management at the Look Out Tower's some years way back. This is my third season as a fire fighter, engine crew member, and I like it.

Jay Are Starr
 Hello my name is Jay-Are Starr that's what I go by anyway. I am not running for any candidacy nor am I trying to sell you anything I am supposed to tell a little about myself so here it goes.

I was born in the Windy City of Chicago, Illinois in 1974. I stayed there for a couple of months and moved back to Warm Springs and I have lived here all my life.

I have attended Madras and Warm Springs Schools only to drop out in the eleventh grade (don't deny it but I don't endorse it). I attained my Good Enough D. diploma when I was 18 and went on to work at the mill, Natural Resources and last but not least Fire Management.

This is my second season as a fire fighter and I have enough experience to say "don't blame me I didn't do it." I like working here cause everyone has a sense of humor and there is no dress code plus we're

always outdoors. I have no plans for the future except to put fires out. Well, it's been about a paragraph now and that's what we're supposed to write so I better go now.

I couldn't believe they told me I had to write something for the newspaper and it didn't have to go in

the apology section "cool huh?" Well anyway remember "only you can prevent forest fires," or something.

Vernon Tias
 My name is Vernon Tias, I was born in Pendleton, Oregon. I spent most of my life here in Warm Springs. I started working here in 1984 on the

Hot Shot crew. When they first started I was a crew member.

Now I am the Engine Director. I have been doing this job for two years. One of my future goals is to get as far as I can in this department. I now hold 11 years of experience in this job.

Engine crew members Thomas Williams, Jay-Are Starr and Vernon Tias and the rest of the crew members are in their final weeks of work for the season.

Don't be afraid to achieve your goals

take the chance. There are a lot of people willing to help and support you. Well I would like to let you know that I'm here in Fort Leonard Wood, Missouri. I'm going to school for Heavy Equipment Operator, "SeaBus." I'm going to go Battalion, that means traveling the world, I'll be deployed over seas for seven months, then back here in the states for seven months. For the next five years it'll be like that. I made a lot of friends who care and help each other out. I will be coming home for a week in December the 20th to the 27th. I hope that this letter helps you out for anyone who have dreams and are not sure they can make them happen. Be strong.

If any of you want my address, I would appreciate any who wants to, to go ahead and write. I would like to say hello to all the elders.

Linda "Muzzie" Bryant
 Joined service on August 14, 1995,
 Completed boot camp on October 13, 1995. Started second session of training on 10/30/95 at Fort Leonard Wood, MO, enlisted for 5 years.

To the girls of the Reservation:
 I would just like to say hello and let everyone know I'm doing O.K. I would like to just say that if you have thoughts or dreams to get out and see the world or just meet people, all you got to do is take that big step. I was scared at first, especially since I was leaving for boot camp and leaving my family. It was hard at first, but since I met a lot of good friends and helpful people I have learned to adjust to my new environment. I really enjoy the Navy life, but I am making my dreams and goals happen. You got to

What is the "bottom line"?

To the editor,
 Hello from Pastor Rick. I saw a TV show the other night talking about the effects of down-sizing business. They talked about the stress factors that develop when someone is laid off. This very noble company went so far as to hire a group of counselors to help employees with the effects of being laid-off. America is a funny place to live. We are sensitive to the feelings of one person yet will lay off that person for the sake of the bottom line of business. Gone are the days of employment stability.

In the past, the boss had a good bottom line, he had profit so he left his employees alone to do their work. Now the bottom line is effected by world decisions, government rules, greater competition, and the bosses boat payment. So things happen for the sake of the bottom line. Now, how do employees react to this problem? So go and burn the bosses' boat. Some, lose heart and go back
