Headlice Epidemic!!!

Parents/guardians, it is very important for children's heads to be checked weekly to make sure that they do not develop a serious problem with headlice or nit infestation. We cannot continue to let children attend WSE who have live headlice and/or nit infestation. We will be calling the parent/guardian to come and pick up the child from school. Children will not be allowed to return to school until the condition has been taken care of completely. Generally, the treatment will require the child to miss only one day from school. Thank you for your cooperation with this matter.

SMART

SMART Volunteers are still needed! Please contact the WSE school office if you are interested in donating 1/2 hour once or twice a week. It's one way to make a difference in the life of a child!
