Presentations by each Team  
Food and Beverages  
KWSO LIVE!

### FUN FOR KIDS!

See Sparky and the new Fire Truck  
Balloons for the kids  
Contests for kids grades 1 through 12

### What are *some* of the issues from the 1983 Comprehensive Plan?

**Cultural Resources**—Balance natural resource development with preservation of cultural and historical resources.

**Tribal Economy**—Match education and training to reservation jobs available now and in the future.

**Human Resources**—Examine the relationship of high dropout rate to receipt of trust fund monies

**Tribal Government**—Explain Treaty rights to the citizens.

**Housing**—Provide for enough housing units to meet the existing and future needs on the reservation, especially among singles and young marrieds

**Transportation**—Provide for overall transportation planning and coordination with land use and development.

**Recreation**—Use recreation programs as a means of helping solve social and health problems.

**Public Facilities**—Determine the demand for rural domestic water development and availability of ground water.

**Forest Lands**—Protect root digging areas and increase the number of huckleberry fields. Fertilize to increase berry production.

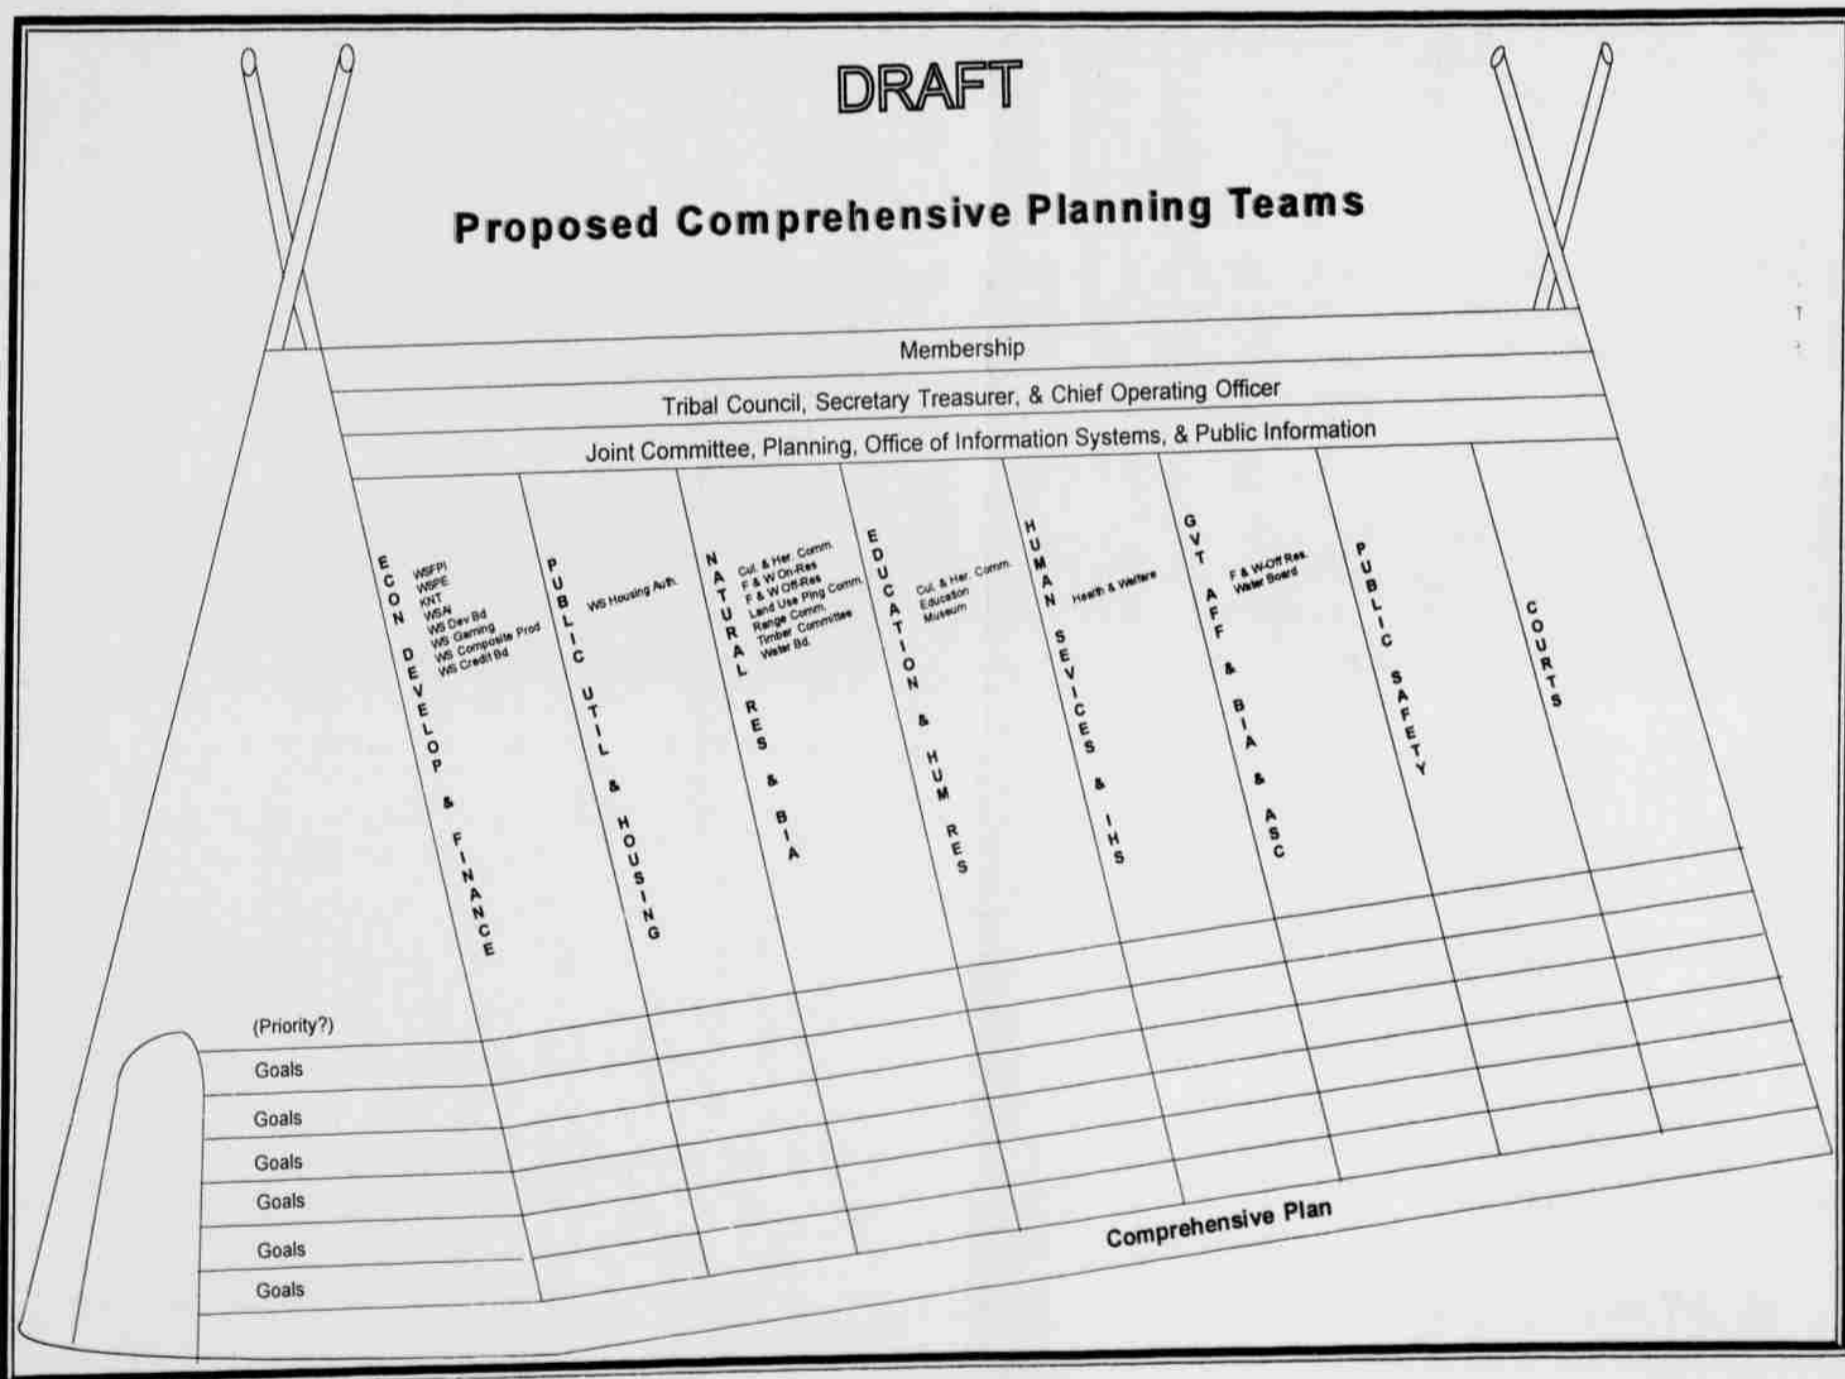

**Agriculture and Rangelands**—Expand agricultural land uses and improve range uses that have declined on the reservation due to fractionated interest in land and lack of support and interest in range management programs, practices and policies.

**Natural Resources**—Protect and secure water rights.

**Natural Hazards**—Provide for reservation-wide flood control and flood-plain management, especially along Shitike Creek, Tenino Creek and the Warm Springs River.

### What are the issues for the new *updated* Comp Plan?

Are the issues the same as in 1983?....Are there new issues?....Have we improved or gone backwards in some areas? These are questions we will begin to examine at the Comprehensive Plan Fair. Be a part of the plan for the future.

### Who are the planning teams?

**Education and Human Resources**—  
Julie Quaid  
**Human Services**—  
Charlotte Herkshan  
**Economic Development and Finance**—  
Sal Sahme  
**BIA Land Operations**—  
Gerald Henrikson

**Natural Resources and BIA**—  
Deepak Sehgal  
**Public Utilities**—  
Nancy Collins  
**Public Relations**—  
Marie Calica  
**Government, BIA, ASC**—  
Ginger Smith

**Public Safety**—  
Stoney Miller, Anita Jackson, Dan Martinez,  
Lola Sohappay or appointee  
**Land Use Planning Committee and Joint Committee**—  
Lee Tom  
**Community Planner**—Jolene Atencio
