Drug testing to begin at Madras High

The 509-J school board has approved drug testing for athletes starting the 1997-1998 season. Each athlete must submit to a drug test before they can participate in sports. Madras High Athletic Director Margaret Sturza stated "All the coaches at Madras were in favor of the drug testing. We got this idea from a small school Vernonia school district, they have been doing this a long time and have had good results. Paisley High is also starting a drug testing program this year," concluded Sturza.

Each student involved in interscholastic athletics or cheerleading must sign a consent form before joining the program. Parents must also sign.

Testing rules: All student athletes may be tested at the beginning of any athletic seasons, fall, winter or spring, at the discretion of the superintendent. Students joining a program after the season starts will be tested if the rest of the team was earlier. Random testing will be conducted at least two weeks throughout each season. A minimum of 5% and a maximum 10% of each season's athletes will be tested at each test period as

determined by the superintendent. Procedures for testing: Selection for testing will be by random procedures from a pool of all current participants.

First positive result, the student will be given the option of participation in a drug assistance program and submission to biweekly drug testing for eight weeks (regardless of whether or not the season ends prior to the eight weeks) or suspension from the athletic program for the remainder of the current season and the next athletic season.

A second positive result in any two consecutive calendar years, the student will be suspended from the remainder of the current season and the next two athletic seasons, which the student is eligible.

If a third positive result in any two consecutive calendar years, the student will be suspended from athletics for the remainder of the current season and the next three seasons for which the student is eligible. There will be a meeting for a student athletes and their parents in August, which will be announced later.

In the first game WS played SW Tribes. The local ladies scored first, in the bottom of the third they scored three runs.
