### Benefit Programs for Veterans

#### Disability Compensation

Monetary benefits, called disability compensation, are paid to veterans who are disabled by injury or disease incurred or aggravated during active military service. The service of the veteran must have been terminated through separation or discharge under conditions that were other than dishonorable. Monetary benefits depend upon the amount of disability caused by the injury or disease. The benefits, which are not subject to federal or state income tax, are set by Congress. Disability compensation varies with the number of dependents and is paid monthly. The payment of military retirement pay, disability severance pay and separation incentive payments known as SSB and VSI (Special Separation Benefits and Voluntary

Separation Incentives) also affected amount of VA compensation paid. Compensation rated effective December 1, 1996, for a single veteran without dependents:

1997 Compensation Rates

Disability	Monthly rate
10 percent	\$94
20 percent	179
30 percent	274
40 percent	391
50 percent	558
60 percent	703
70 percent	887
80 percent	1,028
90 percent	1,157
100 percent	1,924

#### Allowances for Dependents:

Veterans whose service-connected disabilities; are rated at 30 percent or more are entitled

to additional allowances for dependents. The additional amount is determined according to the number of dependents and the degree of disability. A disabled veteran evaluated 30 percent or more also is entitled to receive a special allowance for a spouse who is in need of the aid and attendance of another person.

#### Prisoners of War

Former prisoners of war who were incarcerated for at least 30 days may be entitled to disability compensation for disabilities resulting from a number of diseases or ailments. The disabilities must be manifested to a degree of 10 percent or more. Other intervening causes may rebut claims.

### Health-Care Benefits for the Veterans

#### Outpatient Dental Treatment

Outpatient dental treatment provided by VA includes examinations and the full spectrum of diagnostic, surgical, restorative and preventive techniques. Nonservice-connected veterans who are authorized outpatient dental care may be billed the applicable copayment if their income exceeds the maximum threshold. The following may be eligible for free dental care:

1. Dental conditions or disabilities that are service connected and compensable will be treated.

2. Service-connected dental conditions or disabilities that are not compensable may receive one-time treatment if the conditions can be shown to have existed at discharge or within 180 days of release from active service. Veterans who served on active duty for 90 days or more during the Persian Gulf War are included in this category. Veterans must apply to VA for dental care within

90 days following separation. Veterans will not be considered eligible if their separation document indicates that necessary treatment was completed during the 90 days prior to separation.

3. Veterans may receive treatment for service-connected, non-compensable dental conditions resulting from combat wounds or conditions or former prisoners of war who were incarcerated less than 90 days.

4. Veterans who were prisoners of war for 90 days or more may receive complete dental care.

5. Veterans may receive complete dental care if receiving disability compensation at the 100-percent rate or if eligible to receive it by reason of unemployment.

6. Nonservice-connected dental conditions that are determined by VA to be aggravating a service-connected medical problem may be treated.

7. Veterans participating in a vocational rehabilitation program may be treated.

8. Veterans may be treated for nonservice-connected dental conditions when treatment was begun in a VA medical center, when it is professionally determined to be reasonably necessary to complete such dental treatment on an outpatient basis.

9. Veterans scheduled for admission to inpatient service or who are receiving medical services may receive outpatient dental care if the dental condition is determined to be complication a medical condition which VA is currently treating.

## Funeral arrangements changed

**To whom it may concern,**  
Due to the misunderstanding of the funeral of Darryl Scott, Jr., the funeral arrangements were changed without letting the other side of the family know.

The dressing also took place without the father, grandmother and uncle being present.

The funeral services were set at BelAir Funeral Home with Earl Tufti of the Full Gospel Church taking care of the services.

The burial was changed to sunrise and the mother's side of the family canceled the funeral home service. There was talk of having no food

at the Longhouse. Part of the groceries were already purchased and were to be delivered to the Longhouse at 7 a.m. on November 12. We were advised not to take the groceries to the Longhouse early because of the food getting legs and walking off. The other portion of the groceries were picked up at Portland as we returned home.

We've never seen or known such ungrateful people, as being non-tribal members.

We appreciate Ivan bringing the body back from Ferndale, Washington. But the body was taken to the wrong place.

The Scott Family
