**Language Program Update:**

KWSO radio station has followed the format developed for the Newspaper and by doing a full week of Sahpatin, a full week of Wasco, followed with a full week of Sahaptin and a full week of Paiute. This will continue to this to happen throughout the 1998 year.

We are continuing with lessons that will be taught in the Kindergarten and community classes. Continue to follow along with the lessons, we look forward to a time our languages are used on a daily basis within all our homes. It is important to keep working towards a healthier community, and one of these ways is realizing your own self identity.

*Food for thought:* Have you ever realized traits within yourself that you were very proud of? (for example: hardworking, loyal, brave, etc.) Did you realize that the traits you have today are stemmed from the cultural teaching your parents/grandparents have passed to you? These are the cultural teaching that will help you survive in this world, whether its' getting a job, raising your family, or practicing the religion of your choice. The language you choose to learn will help in realizing that you are important part of the tribe possessing cultural skills that you or your family are be proud of. Come join us...share...we'd love to have you.
