

# The Morning News

SPECIAL EDITION

FEBRUARY 26, 1998

All photos and stories by second grade students in Room 4 at Warm Springs Elementary School

## Warm Springs Elementary bookstore successful

by Kristy Johnson, Valene Wheeler and Byron Scott

The bookstore just opened. It is open Tuesdays and Thursdays from 8:00 to 8:30 and 10:00 to 10:30 in room 20. Mrs. Smith opened the book store so kids can have books and learn how to read. Kids buy books and Mrs. Smith buys more books with the book money. Different teachers work in the bookstore. Adults cannot buy books, only kids. Parents can

only go in if they have their kids with them. All books cost one dollar.

## Students publish their own newspaper

by Ms. Carey Pedersen

Welcome to the Morning News! The stories on this special page were written by the students in Ms. Cary Pedersen's and Ms. Martha Gomez's class at Warm Springs Elementary School. It started with a letter from the Spilyay Tymoo asking for reporters to cover school news. The students created characters and biographies so the Spilyay would "hire" them. Then,

they studied questioning techniques and brainstormed what would make interesting stories for the newspaper. Students went out and interviewed people at the school and wrote up their news articles. The class learned about the whole writing process (writing, editing, rewriting, and publishing) and one way stories can be published in a real-life environment. The students will be visiting the Central Oregonian in Prineville, OR to watch the printing of the paper to add to their knowledge of how newspapers are published. As you can see from these stories, we have some budding reporters in our community!

## Mini-classes were a lot of fun for WSE students

by Preston Johnson and Samantha Kalama

Last year kids at Warm Springs Elementary got to do mini-classes every Friday. Everybody that worked at the school taught a club (teachers, Mrs. Smith, janitors, cooks, office secretaries, bus drivers, and assistants).

Some of the different clubs were: Frisbees, paper airplanes, drawing, paper Indian dolls, rockets, tie-dye, cooking, and pet care. The students really like clubs because they were a lot of fun.

Mrs. Smith said we won't

be able to do clubs this year but maybe next year. We could use your help to

help us do clubs. If you can help us get supplies or teach a club next year,

please call Mrs. Smith at Warm Springs Elementary School.

### Clubs are cool!

Mary Hoptowit - I liked the coloring club. Clubs are cool!

Warner Williams - I would like to have clubs again, they were fun. I thought rockets were cool!

Sheldon Leonard - I think the cooking club would be fun.

Natalie Fuiava - I liked the drawing club because I could draw. Clubs are fun.

Rodney Kenyon - The rocket club was fun!

## The new track

by Alyson Cle and Becca Ann Taylor

The school district is building a new track at warm Springs Elementary. The new track will be up on the upper playground. The school district will cut out the grass in an oval shape and put rubber or gravel down on the oval shape. The track will be a good place to run and walk. The old playground had too many holes.

Students who contributed to this special "addition" of the Spilyay Tymoo are:

Alyson Cole, Atcity Begay, Becca Taylor, Bradford Heath, Brandon Thompson, Byron Scott, Callie Howtopat, Daniel Arce, Davis Sohapp, Edward Williams, Kristy Johnson, Michael Berry, Preston Johnson, Raymond Torres, Samantha Kalama, Sharice Johnson, Valene Wheeler, and Vivian Smith.

## Survey shows favorite clubs

Cooking 27  
Basketball 10  
Pet Care 9  
Rockets 9  
Spanish 4  
Balloon Shapes 4  
board games 4

We did a survey of some of the kids here at school and they liked the cooking club best. They liked basketball next and pet care and rockets tied for third. Other favorites are board games, Spanish, balloon shapes, paper Indian dolls, paper airplanes and drawing.

## Mr. Brown's Healthy Book

by Raymond Torres, Edward Williams and Callie Howtopat

Mr. Brown's first grade class is making a "Healthy Book." The kids talked about healthy living so they could learn more about staying healthy. The kids talked about what they already do and what they will do to stay healthy. They drew pictures of things and wrote about them.

by Brandon Thompson and Davis Sohapp

Miss Orchard's second grade class is studying about dinosaurs. They are building their own Jurassic Park out of clay and volcanoes out of

papier-mache. They will learn how to make volcanoes erupt by doing some science experiments. They have been working on this project for one month. Room One thinks dinosaurs are interesting.

## Teddy bears explore world

by Atcity Begay

Mr. Rodin's class has been studying maps. They gave five teddy bears out to teachers to take to different places like Arizona, Disney World and Washington, DC. They had backpacks on

and cameras to take pictures. The bears' names are: Petry, T-Rex, Fluffy, Cushion and Yogo. The bears left at Christmas and will come back in April. The kids will learn a lot from the bears' travels so they can do well on their tests.

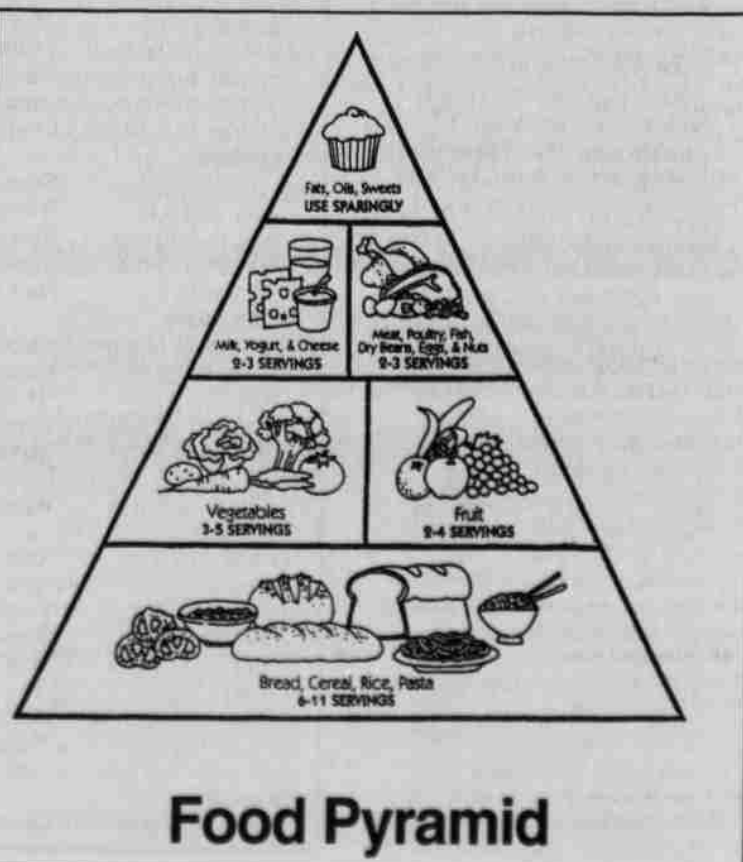

## Healthy food makes healthy kids

by Bradford Heath and Micheal Berry

The cooks at Warm Springs Elementary start working at 5:45 a.m. June, Connie and Marge make breakfast and lunch. They follow the food pyramid guide which tells how much of each food to eat. The bottom tells us to eat lots of grains like rice, oatmeal, bread and cereal. The next part tells us to eat fruits and vegetables like carrots, apples, grapes, blueberries and broccoli. Then, the next part tells us to eat proteins like eggs, peanut butter and meat and dairy like milk and yogurt, and cheese. The top says to eat a little bit of foods like candy, pop, gum, sugar, and butter. Our cooks make lunches that use foods from each group to make us play longer, keep our energy, think harder and stay

stronger. The cooks fix some of the food up but some they buy already prepared. We

wish they would fix us elk and deer meat sometimes—Yummmmm!

Food Pyramid

## Clifford class song popular

by Vivian Smith and Sharice Johnson

Mrs. Brush gave Mr. Craig a paper that had a Clifford song on it. Mr. Craig thought it would be nice for the kids. The kindergartners sang the song on December 2 in the gym at Warm Springs Elementary before the Christmas program. A lot of children like Clifford. Mr. Craig sat down and played the piano.

Spilyay Tymoo would like to express our appreciation to Carey Pedersen's class for their hard work and dedication to this project. They were all great "employees" and we'd "rehire" them in a heart beat!

## Start Making A Reader Today!

SMART reader Pam Cardenas reads to little boy.

Wanda Buslach is the SMART Reader organizer at Warm Springs Elementary. She started in 1995 Some kids need

help reading so people vounteer on Tuesdays and Thursdays to read to the kids in the Speech Center. Call if you can help. Thank you.
