The Indian Warrior - The Veterans Corner Health-Care Benefits for Veterans

Health-Care Enrollment

To receive health care, veterans after October 1998 must be enrolled with VA, except for:

1. Veterans with a service-connected disability of 50 percent or more
 2. Veterans discharged less than one year for a compensable disability.
 3. Veterans seeking care for a service-connected disability.
- To permit better planning of health resources, these three categories of veterans, however, are urged to apply for enrollment as well.
- Veterans will be enrolled to the extent Congressional appropriations allow. If appropriations are limited, enrollment will occur based on the following priorities:
1. Veterans with service-connected conditions who are rated 50 percent or more disabling.
 2. Veterans with service-connected conditions who are rated 30 or 40 percent disabling.
 3. Veterans who are former POWs, veterans discharged from active duty for compensable conditions, and veterans awarded special eligibility classification.

4. Veterans who are receiving aid and attendance or housebound benefits and veterans who have been determined by VA to be catastrophically disabled.

5. Nonservice-connected veterans and service-connected veterans rated zero percent disabled, whose income and net worth are below the established thresholds.

6. All other eligible veterans who are not required to make copayments for their treatment. This includes World War I and Mexican Border War veterans, veterans receiving care for exposure to toxic substances or environmental hazards while in service and compensable zero percent service-connected veterans.

7. Nonservice-connected veterans and noncompensable zero percent service-connected veterans with income and net worth above the statutory threshold who agree to pay copayments. Veterans will remain enrolled for one year, after which enrollment will be reviewed and renewed depending upon resources available to VA. Veterans who are not renewed will be notified in writing.

second category of veterans, VA may furnish hospital and outpatient care if resources and facilities are available and the veterans make a copayment.

Category 1 is composed of the following: veterans in need of care for a service-connected condition; veterans who have compensable service-connected disability; veterans whose discharge or release from active military service was for a disability that was incurred or aggravated in line of duty; veterans who are former prisoners of war; veterans of the Mexican Border period of World War I; veterans who were exposed to Agent Orange in Vietnam, ionizing radiation, or environmental hazards in the Persian Gulf, and veterans whose annual income and net worth are below the "means test" threshold. The threshold is adjusted annually and announced in January.

Category 2 is composed of all other veterans, including nonservice-connected veterans with incomes and net worth above the "means test" threshold and zero percent service-connected veterans needing care for any nonservice-connected disability. These veterans must agree to make copayments. VA holds these patients responsible for the Medicare deductible for the first 990 days of hospital care, the patient is charged one-half of Medicare deductible. In addition to these charges, the patient is charged \$19 a day for hospital care and \$5 a day for VA nursing-home care. For outpatient care, the copayment is 20 percent of the cost of an average outpatient visit.

Hospital and Outpatient Care

Eligibility for VA hospital and outpatient care currently is divided into two categories; in the first category of veterans, VA shall provide hospital and outpatient care to the extent and in the amount that Congress appropriates funds. In the

Wall That Heals Visits Vancouver, WA

On the week of May 21, 1998, the traveling Vietnam Wall was in Vancouver, WA. On May 25, there was an estimated 20,000 individuals that visited the Wall.

Ceremonies were held with many color guards present. The Wall that heals, travels all over the country listing the names of all the men and women who were killed or missing in action during the Vietnam War.

Many Vietnam Veterans were on hand viewing names of their friends and buddies that never made it home from the Vietnam War. The traveling wall gives people a

chance to see what the wall in Washington D.C. has, and for those who are unable to make the tripe back there to view the Wall.

A lot of memories were brought back to some of the Vietnam Veterans, some who are finally getting adjusted to life since being in the war at Vietnam. The listing of more than 58,000 men and women's names who were killed or missing in action during that conflict.

Stories of some of the big battles that took place during that era, of when the U. S. Troops first landed at Cam Ranh Bay, the battles of

Pleiku, Bien Hoa, Da Lat, the siege and battle of Khe Sanh, Quang Tri, Hue, Dak To, the Delta area and Saigon. Of course there were stories of all over the country of Vietnam also.

There were many who were there to visit the names of their loved ones that were lost. The traveling wall serves a lot to those who cannot get the D.C. to visit the Vietnam Wall.

The Wall is scheduled to have gone to Klamath Falls for a stop there and on to other points here in the western coast.
