## Senior citizens enjoy their day at the Cove State Park

*Warm Springs Senior Citizens spent the day at the Cove August 6. There were patio boat and speed boat rides for them to choose from. After riding the boats, lunch was served to the seniors. The rest of the day they sat back and watched the children and teens swim.*

The boat rides were long and peaceful.

After riding the boats and eating a delicious lunch these guys are just relaxing and watching the swimmers.

Local fire crews were busy earlier this week as 61 acres burned in the Upper Dry Creek housing subdivision. Cause of the fire is suspected arson.
