

E Coosh EEWA: The way it is

SPILYAY SPEAKS

Will we be the healthiest reservation by the year 2000? Well if we are not we can say we made a real effort in accomplishing that goal.

That's the only area that we have made good progress in during the past couple of years. But there is still room for improvements in that area.

after they have made that big step they found out there is more to life than what they had in the past. They have found that the big change in life is well worth it and is more productive for them and their families.

Their family life has changed drastically to where they all share the happiness together that were impossible in the past.

There are still those who don't want to admit they are addicted to drugs and alcohol. It's hard for anyone to day, "I'm an Alcoholic," or "I'm addicted to Chemical Dependency."

It not that impossible and there are so many things a person can do to turn his/her life around and lead a happy life with the rest of the tribal member here..

It's that first step is the killer, the one where a person hesitates to admit he/she is an alcoholic or is chemically dependent.

It's no disgrace or shame to admit being addicted to alcohol and drugs. It's the step to give it up a person has to face and when he does this things will certainly change for the better and he/she will never regret doing the right thing for their family and everyone concerned.

Those who refuse to accept the responsibility are only hurting their children because they are too stubborn to change.

There are several treatment centers around the northwest where many individuals have gone to and are sorry one bit, places like Serenity Lane, Turn Around, and the Sun down Ranch, where patients are well taken care of and guided toward a healthy life for the future.

There is a saying that goes, "If you think you can, you can. And if you think you can't your right." But it's up to the individual to make up his/her own mind and make that first big step toward a better life.

It's a good track to follow if we may not be the healthiest reservation in the country, at least we have made a big step-in the right direction, who knows we may be the healthiest reservation in the country today.

Chief Henry expresses concerns about Council business

To the People, In response to the concerns that appeared in the Spilyay's latest issue. The Tribal Council always had the authority to shift the money around that was approved in the base year operating budget.

The Secretary/Treasurer and Chief Operations Officer have the overall responsibility for the organization. We, Tribal Council, appointed Charles Jackson as Secretary/Treasurer, these gave him green light to be a rebel rouser in the organization.

The Chief Operations Officer--It is unknown at this moment whether he is qualified to fill this position, We will just have to give him a chance to prove himself or remove him.

Thanks for support of Hood to Coast team

To the editor, Every year, since approximately 1988, there have been teams from Warm Springs entered in the annual Hood to Coast Relay. My family has always been a participant in this event, whether it's myself, my kids, my brother & his family, cousins, nieces, nephews, etc.

to our calling and faced the challenge of the 1998 Hood to Coast Relay! We had a great bunch of people this year. This group of runners just seemed to "click". Everyone got along well and helped each other out.

entered that weekend and we'd like to offer our congratulations to them. "We're Not Out Of It Yet" (captain, Laurie Danzuka) was entered again. They beat us, but only by 4-6 minutes!

All in all, it was a fun time for everyone. I hope that all of the other teams had a great time, we definitely did. See y'all next year!

Val Squiemphen Captain-"Native Reign II"

Tribal Council delegated him to have authority over the employees that he is responsible over individuals for disciplinary action (verbal warning, suspension or termination).

We have a lot of problems, we have had them for some time now. I will list them in the order of mail I receive them: 1) Fire and Safety; 2) Tribal Court; 3) Early Childhood Education Center; 4) Indian Health Service. It would be easy to correct these problems.

We sure talk about doing the right things or the Tribe so it will look good the Tribal Council minutes and then we kick back and relax and hope the problem will go away on its own.

end of the city for level ground and easy access. I lived there for 25 years, still own a home there and plan on returning after retirement.

Support shown for casino

To the editor, I support the proposed inter-tribal casino plan to be built in Hood River for the following reasons: 1. Available work force, a casino would draw employee from the surrounding communities, Hood River, O'Dell, Parkdale, Mosier, Bingen, White Salmon, Cascade Locks, Willard and Lyle.

we come to talk about it, the Tribal Council fails to show, lack of quorum, fail to do anything about it, they are either senile/simply forget or just have, we would not have the funds we got today.

I spent a week down in Welches, OR and going over this fund to make certain our next generation will have a nice nest egg for them to look forward to. Now, I found out that we set up a slush fund for Tribal Council

Gaming and Warm Springs Power Enterprise, these are very good enterprises to venture into, I do not know where we will get the funds from. We are already stealing money from our children's children from a fund that was passed by resolution in 1988 the way it is worded it should be declared null and void.

to spend at his leisure. We could of stayed at home and done that in an hour. If our past generation would have had the same thinking as we have, we would not have the funds we got today.

I want to thank the Tribal Council for saying a prayer each morning, thanking the Lord that they got a chance to sit at the table with me. THIS IS MY OPINION AND MINE ALONE.

PS: I would be glad to talk with anyone on any subject they choose at anytime convenient for you.

In Loving Memory of Our Mom September 10, 1910 to September 26, 1997.

We thought of you with love today. But that is nothing new We thought about you yesterday, And days before that too. We think of you in silence We often speak your name. All we have now, are memories, And your picture in a frame. Your memory is our keepsake. With which we will never part; God has you in His keep, We have you in our heart. It broke our heart to lose you but you didn't go alone, for a part of us, went with you.. the day God took you home. Love n' miss you dearly mom, Your children
