The Census 2000 Committee has been making every effort to create the awareness of how important it is to complete the Census forms. They sponsored a variety of activities including a powwow, noon walk/run and have made video tapes available to see. Posters, bubble wands, buttons and other freebies have been handed out to people

along with encouraging words to fill out the Census forms so that the Native people will be counted as every one counted may make the Native community eligible for federal and grant monies.

Don't forget to fill our those forms.
