Member voices opinion on casino in Madras

To the editor, Build Casino at W.S. This is my own opinion as a tribal member, not as an employee or anything else. I don't like to sound negative but sometimes that's what it takes to get people's attention. Remember we were told there would be three referendums: The first was to decide if we wanted gaming. We said yes. The second voting was to decide if we wanted to continue gaming. We said yes. My understanding is this third vote on May 25 will be asking us if we want to build a casino in Madras. THAT IS NOT WHAT WE WERE TOLD AFTER THE SECOND VOTE. COUNCIL WAS TO ASK US WHERE WE WANT TO BUILD. If they ask us on the ballot if we want to build in Madras, it appears to many tribal members that there is no choice in the matter. Our tribal members have the right to decide where to build after all it's our money that will be financing the enterprise. Let's look at some of the reason's why we should build on the reservation. (1) It is within the boundaries of our reservation. (2) If it's our own trust land, we don't pay taxes on it. (3) Many more tribal members could get employment and hopefully have some say in setting the hiring policies. (4)

Many members have said it should be build along highway 26 which is more accessible to people traveling through W.S. than its' present location 13 miles off any main road. (5) There is more space on the rez in case we want to expand to more accommodations such as a hotel, restaurant, customer parking, RV park, truck parking, etc. (6) We would be making six times the amount we are now making at Indian Head. (7) The place proposing to build in Madras contains only 8.69 acres. That's about the size of where the clinic complex is located. If we built at the Madras site, beside being a small space, when we decide to expand, which we will, the land around our land there belongs to private landowners. In that case we would be forced to either buy (at a very high price) more land, or lease land from lease land from these private owners. Why should we do that when we have many other potential sites on the reservation? We would be creating employment for people other than our own tribal members, and boasting somebody else's economy instead of our own. Our tribe has done business in Madras for over 100 years. During these years, how many times has the town publicly said "thank you Warm Springs for patronizing our businesses" Have you gone into town to shop and been followed around by store staff? Have you compared car prices to dealerships in other towns? Quite a difference, huh. On any given payday, bonus day did you notice the number of county and state police parked alongside the highway between WS and Madras? They have been called into council on this and explained that it's called "selective enforcement." Ask your student how he/she feels about going to school there. There have been Madras businesses that have the gall to call the tribal office to ask when bonus was coming out and how much it was so they could "stock up" their stores. Examples: Banks and liquor stores. Let's start listening to our elders and build businesses on our reservations. Our old people were wise and smart even if they weren't formally educated. They thought of future generations, which is US. Let us be as far-sighted as they were. I am personally urging tribal members to vote for a casino site located at WS, which means to vote "no" if the ballot asks you if you want to build in Madras. Warm Springs is our home, let's work here and help build up our economy. Your vote counts! Thank you. Ginger Smith,
