Native American Indy 500 challenge; the Bison Project

The Indianapolis 500, the greatest prize in motorsports, has never been won or seriously contested by a Native American. We hope to change this. The path to Indy is a difficult one. So is life for young Native Americans on and off the reservation. We want to help.

The honor of racing in the Memorial Day weekend classic-Memorial Day honors those that have made great sacrifice in defense of America and their beliefs. Native Americans have the highest record of military service per capita of any ethnic group in the U.S. It would be a great honor for a Native American to compete in and win the Indy 500.

Getting on track-Like any sport, getting to the top requires many steps. The first one is to avoid substance abuse (tobacco, alcohol and drugs). This is a real problem on reservations and in Native American Communities. Encouragement, discipline and setting a good example can help young people avoid these pitfalls. Racing, like life, requires a lot of work to be successful.

School is cool-Get an education!

To get to the top in motorsports you need sponsors. On and off the track you are their ambassador. They are looking for sharp and articulate people. Also, you must be able to understand the complex technology used in the 21st century motorsports.

Shape up-"Race car drivers are high performance athletes who in many instances are in better condition, mentally and physically, than performers in other sports." Baltimore Sun.

Driving an open-wheel race car at high speeds is very demanding. Start a fitness program.

Karting is the way to start-Many of today's top drivers started in Go-Karts. This is the training ground for serious racers and can open the gate to competing in the Indy 500.

World Karting Association www.worldkarting.com (704) 455-1606 Surf the net under "Karting".

Racing on the reservation-Kart tracks can be set up anywhere, no matter how remote the location. They can be raced on dirt or asphalt in oval or road race configuration. For example, there are 15 classes in the

WKA National Dirt Series starting with kids karts (5-7). The tracks could be set up adjacent to community centers as a place for positive activities and the training ground for future champions.

The Next Step-If a racer shows promise there are several series and drivers schools that focus on open-wheel racing.

www.racingschools.com
 Indy Racing Northern Light Series www.indyracingleague.com (317) 484-6526. The IRNLS focuses on racing on ovals at American tracks. The Indy 500 is the highlight of their series.

Championship Auto Racing Teams (CART) www.cart.com (248) 362-8800. CART sanctions open-wheel races in America and in several other countries. They race on ovals, street, and road racing circuits.

The facts

There are 557 tribes in 33 states with combined populations of 2.4 million, 1.3 million live on reservations.

The seeds of despair!

- 1. The suicide rate for Native

Americans (17.3% of all deaths) is 70% higher than the rate for the general population.

2. Native Americans have the lowest life expectancy of any population in this hemisphere except Haitians.

3. 26.5% of deaths for Indian men were linked to alcohol; for women 13%. This is 5.6 times the overall U.S. rate.

4. Indians reservations are the poorest communities in America. Unemployment on reservations hovers around 50%, rising as high as 90% on some.

5. Over 50% of Indian students drop out of high school; less than 20% of high school graduates go on to traditional college and nearly all drop out their first year.

The Flyin' Bison Project!

We hope to be a source of inspiration for Native American youth. Would you like to help? We would also like to hear from any Native American drivers now racing.

Bill Isbister, c/o Bill's Buffalo, P.O. Box 6431, Aloha, OR 97007; (503) 591-0832; e-mail dino19@earthlink.net

Spiritual runners expected in Warm Springs

Spiritual runners on a journey from Alaska to Mexico City are expected to be in Warm Springs on July 7. The purpose of this run is to reinforce unity and cultural exchange among all indigenous nations from North, Central, and South America. The Journey is also a prayer for the traditional values of indigenous people and a prayer for the healing of the land.

Peace and Dignity Journeys has runners in North and South America. The South American runners started on March 18 at Tierra del Fuego, which is at the Southern tip of the continent. The Northern group coming through Oregon started on May 1 in Chickaloon, Alaska. The run will end on October 22 at the Ancient Temples of Teotihuacan near Mexico City when the 2 groups meet. The run was done in 1992 and 1996. This is the first time the Journey will pass through Warm Springs. Local runners are encouraged to join for a few miles or even months. Run organizers invite communities along the route to greet runners and are seeking help in providing food and lodging.
