The Veteran's corner

Locals attend Northwest meeting

There were several local Veterans who attended the Northwest Indian veterans meeting which was held at the VA Medical Center, at the Veterans Hospital in Portland, Oregon, during the week of Feb. 23, 01.

Topics discussed were in the scope of the Federal Benefits for Veterans and dependents. There are all kinds of assistance available for veterans but they must inquire into their needs. They may have need for Health Care, Home Loans, Pharmacy, or just about any kind of problems a veteran may have, there are personnel that can be of help.

At the meeting there were reports of past events and plans for the future. Discussed were home loans and health care for veterans and dependent.

In the past it was almost impossible for a Native American to get a GI home loan because of the status of land where all or most Native Americans live on trust land, and it would be hard for a lender to collect payments on defaulted loan.

In order to bypass this situation the VA and the Tribal Councils have come to an agreement on these conditions where they would help in assisting a Native American to get a GI home loan, and the technical problems would be handled through the Council's offices.

The Health-Care Benefits was also discussed and in order for a Veteran to receive health care, he or she must generally be enrolled with the VA. Veterans can apply for enrollment any time.

Veterans do not have to be enrolled if they: (1) have a service-con-

nected disability of 50 percent or more; (2) want care for a disability, which the military determined was incurred or aggravated in the line of duty, but which VA has not yet rated, during the 12 month period

following discharge; (3) want care for a service-connected disability. Other than that Veterans are urged to enroll.

Outpatient Pharmacy Services are provided free to: (1) veterans with a service-connected disability of 50 percent or more; (2) veterans receiving medication for treatment of service-connected conditions; (3) Veterans whose income does not exceed the maximum VA pension.

Medical Care for Dependents and Survivors, (CHAMPVA), the VA Civilian Health and Medical Program, shares the cost of medical care for dependents and survivors of vet-

community-based "stand downs" to make benefits information and assistance more accessible to homeless veterans. Homeless veterans also are provided special assistance through many other VA program initiatives.

Women Veterans are eligible for the same VA benefits as male veterans. Additional services and benefits for women veterans are gender-specific, and include breast and pelvic examinations and other general reproductive health-care services. All veterans can get help through your local VA representative.
