## Play for fun a success, more scheduled for future

To the editor:

I would like to take this time to thank all the children who came and played basketball in the play-for-fun games. We had about 75-80 kids ages 4-18. It was a lot of fun watching the little ones. A lot of older children just appreciated the chance to play even though they

weren't seasoned players. I believe some of them were on the floor for the first time. They didn't want to stop from morning until night. When they asked, "when are the next games?" I said it's hard work and a lot of responsibility to take care of. The children told me they would help me. It made me sad for

the children to want to play so bad and have little or no support. We need scorekeepers, sweepers, clean-up, coaches, sergeant at arms, clock operators and a cheerful supportive audience. Everyone is always talking about our younger generation and making a difference teaching them better ways. But talk is cheap.

When you get involved and interact with the children and try to get things going for them, keep them busy doing good things. Everything is closed up tight on weekends, cold and dark. There's nothing for our kids. Don't say, "that's their parents job," because a lot of parents aren't there for their children. Lets get in-

involved and help keep children off the streets, drinking, drugging, fighting, stealing and all the negative ugly things. Lets be a positive force. I want to say thank you very much mom and dad, and grandma Gladys for all your support and encouragement to do all this for the children. Thank you and God bless you. Reva Johnson
