## Dental program available

Here is advice, plus some good news, for new mothers of the Warm Springs community.

Cavities in your child's teeth start as infections passed from your mouth to your baby's, because of the close contact you have with your baby.

Your health care center is treating new moms with a new dental coating to try to prevent

your mouth germs from infecting the baby, and to try to avoid cavities in your child. Call Lila Martinez to learn more about this program, 553-2462. Costs will be paid for those participating. All appointments will be scheduled at a time convenient to you.

*This is a message of the Warm Springs Health and Wellness Center.*

## A chance for healing

Warm Springs Community Counseling is hosting a Kid's Retreat, Day of Healing next Friday, Oct. 10. The retreat is an opportunity for children and parents or guardians to begin working through unresolved grief, a chance to say goodbye to things we need to let go of and become responsible for our own actions.

The strength to let go and move forward will be provided by the sense of community, brought to focus during the retreat.

This will be a day of children and adults being together and feeling safe enough to begin taking steps toward healing, said Kelly Leggett, child and family counselor.

The retreat is open to tribal member children between the ages of 5 and 18.

There is space for ten children between the ages of 5-8, ten children between the ages of 9-12, and ten children between the ages of 13-18.

The retreat will be at the Community Wellness Center from 8 a.m. till 5:30 p.m., Oct. 10.

It is critical that any child who attends be accompanied by a parent, guardian or other adult family member. There is no limit on the number of adults who may accompany a child.
