### Campaign to promote safe holiday driving

December is National Drunk and Drugged Driving (3-D) Prevention month.

Between Thanksgiving and the New Years holiday is one of the busiest times on the roads, and one of the most dangerous times of the year due to alcohol and drug related traffic accidents and fatalities.

That is why the local Health Promotion Team - staff from Indian Health Service, and the Community Health Education Team - have joined forces with the National Highway Safety campaign to remind everybody to please designate a sober driver before your holiday outing.

Members of the Health Promotion Team will be at the Warm Springs Post Office during the morning of Friday, December 10 for the start of the annual Red Ribbon Campaign to promote safe driving.

Please support their efforts to save lives, and keep our roads safe by flying and red ribbon on your family vehicle.

### Young Achiever Aldo Antunez Sponsored by Les Schwab

Second-grader Aldo Antunez is glad to be back at Warm Springs Elementary. He and his family moved to White Swan for a while, and then moved back to Warm Springs about a month ago. "We're glad to have him back," said school principal Dawn Smith. "We missed him."

Aldo's favorite subject at school is reading, but he has also been doing excellent in math. His scores on the math tests are what prompted Kevin Rodin, school improvement coordinator, to nominate Aldo as the Young Achiever. "He has had some really high scores," said Rodin.

When he is not in school, Aldo said his favorite thing is to play outside. His parents are Lanelle and Bobby Warren.

### BATTERY EFFICIENCY

A battery is 100% efficient at 70°F. At 0°F, the same battery is only 60% efficient. If it now the engine needs over twice as much power to turn it over at 0°F as at 70°F. This is why your battery will fail in extreme cold or hot conditions.
