Saying goodbye is difficult for parents and siblings

By Selena Boise Management successor

So, have you gone out and picked huckleberries yet? I haven't.

I even missed the feast because we had a barbecue for my son George, who Spilyay left for basic training on Monday. Speaks

It was hard to say goodbye, because even though I have been trying to prepare myself for this, I still cried. But, I guess that's what moms do.

I was glad that I talked him into joining us on vacation this year, because I was able to spend some time with him and see him smile, laugh, and be George.

My daughters were there as he left and it was hard for them as well, because he is close to them. Though all their arguing makes it seem as if they hate each other, they truly care and love each other. What brothers and sisters don't have arguments?

Well, at least George was able to eat some huckleberries before he left. He seemed ready for this and it showed in him. He was being the strong person for us all.

All his four years of JROTC were his deciding factor to enlist, but, of course, it was the Navy for a while.

His brother Jackson hopes that George will return for their birthday in December, so we're hoping that he will, too. Jackson hardly understands any of it, but he told George, "I'll see you on our birthday.'

All in all I have to say that I am proud of George and his decision to enlist, because he is only thinking of his future and his education. The experience is something that will make all that worthwhile to him.

Though we will miss him at the Portland-to-Coast High School challenge this year, we will be thinking of him as the team crosses the finish line. Last year our team ran the course with only eight runners, but this year we have 12 and it should run much smoother. George was our stronger runner and took up some extra slack for the absent runners, with some other boys.

But, the good thing is that his running abilities will be watched and it's possible for him to train for something bigger. We will be watching and waiting for that to happen. So, keep my son in prayer.

We will all appreciate it.

Thank you for writing to the Spilyay. Please keep in mind that letters can be no longer than 350 words in length, one submission per issue. Thank you.

Employment

Like land, water and minerals, jobs in private employment on or near the Warm Springs Reservation are an important resource for Indian people and Indians must use their rights to obtain their rightful share of such jobs as they become avail-

Indians have unique and special employment rights and the tribal governments have the inherent sovereign power to pass laws to implement and enforce these special rights on behalf of Indians.

Indians are also entitled to protection of the laws that the federal government has adopted to combat employment discrimination, and the Warm Springs tribal government can and should play a role in the enforcement of those laws.

The Warm Springs tribes should believe it is important to establish an employment rights program and office in order to use the aforementioned laws and powers to increase employment of Indians and to eradicate discrimination against Indi-

Each day

It's been a while since I've written, but I've been in and out of the hospital dealing with infections these last two months. But today I'm feeling grateful and surviving another day.

I've started my chemo, and it's my last round. I'm hoping and praying that'll be the last. I do it twice a month for four months. But enough of myself, I just wanted my families to know how sorry I am for the

loss of sister, Aunt Rose and Randy. All my prayers and thoughts go to them. Sorry for the delay in my messages. I love you all, and let you know life

Each day I pray for all the people at home. I miss being at home but the sacrifices I make to heal myself to be stronger in my prayers and continue my treatments to survive.

I wanted to say "Hello" and "How your bones?" to my sister and brother if they're reading this. Congratulations to my niece, Dora Payne, for making me grandma, too. I'll be darn, too. Thanks. It'll give me a chance to come home to see him on the 16th. I also wanted family to know about Auntie Hilda and family giving me my grandma Flora's Indian name, LaMoosh, and Jonathan's three boys received their Indian names. We also had a dinner and memorial for our mother, Josepha and our brothers, the Yahtin boys. It's just a dinner, but no headstones yet. So, I hope to see the family there, and will be happy to see all of you because I miss your mugs. With all my love, Linda Meanus, "LaMoosh".

Crime of arson

Arson... a word that should strike fear into all of us. Arson signifies destruction and death. It is murder by fire, a violent crime against people and property. Recently several wildland fires on the reservation have been attributed to suspicious activity or arson. Arsonists deliberately set fires for a variety of reasons. The following is a list of arson motives: profit or personal gain, concealment of a crime, hate or revenge, pyromania, insurance fraud, civil disorders (environmental sabotage), vanity or the hero syndrome, and actions of juveniles. The crime of arson endangers the lives of the firefighters and the community. It can affect the economic income of the community. Arson costs the nation and the state of Oregon millions of dollars each year. The recent fires in question here in Warm Springs are in close proximity to Kah-nee-ta Resort and Casino, the fish hatchery, and several subdivisions. How would you feel if your home and all your belongings were destroyed due to the actions of an arsonist? What would happen if the mill were caught in the aftermath of a arson fire? What if thousands of acres of forestland were destroyed by the actions of an arsonist? This crime is serious and does affect us all. As a community it is time to watch out for each other and our natural resources. If you see any suspicious activity or hear of any information that relates to arson fires please call 9-1-1 immediately. Write down any information you can such as license plate number, vehicle identification (make, model, color, year) and description of the person or persons involved. All the information will remain confidential and even the smallest piece of information may prove to be

Appreciation

I would like to thank the people who assisted my cousins and other extended family during the loss of our loved one Aunt Emily Burke Little Fish.

Thank you, Ron and Loren Suppah, for your help. A big thanks to Myrtle Adams for going out of your way to help my niece Michelle - much appreciated.

I am grateful for the services provided from the Warm Springs Tribe, Umanlla Tribe and the Yakama Tribe. I'd like to express appreciation to the service workers who not only assisted but did it with compassion and understanding.

The people who drummed, cooked and showed your support by attending the services,

thank you.

To my cousins who are grieving, Keep going forward in your life, cry when you must. It is healing, but remember the good times and the smile that was always there.

The Lord knows your pain. Open your heart to Him, and He will comfort you. My love to each of you.

God bless you. Sarah Frank.
