## Training on suicide prevention

The Confederated Tribes will host an Applied Suicide Intervention Skills Training program on June 29-30 at the community center.

The training will be from 8:30 a.m. to 4:30 p.m. on both days.

The Applied Suicide Intervention Skills Training (ASIST) workshop is for caregivers who want to feel more comfortable, confident and competent in helping to prevent immediate risk of suicide.

Over 750,000 caregivers have participated in this two-day, highly interactive, practical, practice-oriented workshop. Here's what participants have had to say:

"The ASIST workshop is some of the best training I've

received in almost 20 years as a naval officer. As a chaplain, I frequently deal with individuals in distress. The Suicide Intervention Model is a tremendously effective tool that will allow me to go much further in helping someone who is contemplating suicide. Thanks for your outstanding work in this area of critical importance."

For more information, please feel free to look at LivingWorks Education website:

If you plan to attend the workshop in Warm Springs, please RSVP by calling Jolene Walters at Community Counseling, 553-3205.

## Tribal Employee of the Week Rebekah Main

Good day to all:

My name is Rebekah Main and my Indian name is Yauyaten. My father is George W. Aguilar Sr and my mother is the late Ella Kurip Aguilar. I am a tribal member of the Wasco and Warm Springs Tribe and a mother of six children.

I became the Family Intake Coordinator at Childrens Protective Services right out of college in 1997 and I did that job for one and a half years. From there I transitioned into the CPS director position and have been in this position for nine years.

My ten and a half years at CPS have been an enlightening experience because my passion is working with children and families.

As the director, I am responsible for overseeing the entire program and supervising numerous staff.

I am often busy with administrative tasks, developing

of heart and commitment into the work they do, and I am honored to work beside them.

I am always striving to ensure that the needs of the program are met while trying to continue my personal and professional growth. The nature of our work is challenging and heartbreaking, because no one likes to see children hurt or mistreated by those who care and love them.

I am and always will be a strong advocate for the program, my staff, and my people. With each day, I have faith and hope that our Native families will put their children first.

Healthy families make for a healthier future—our children need all of us. Let us reach out and give a hand up to those in need. Thank you for letting me share a little about myself, God Bless you and yours.

the program, working on addressing grant compliance and meeting those requirements (state and federal), assisting clients, doing a variety of reports, attending a variety of meetings (tribal, state and federal), participating in a variety of task force and multidisciplinary teams, and diving in wherever there is work to do.

At CPS we take pride in our work ethic and all our teamwork endeavors. I have a great group of staff because they put a lot
