2010 U.S. Census is gearing up

The Census is a count of everyone residing in the United States.

Who: All U.S. residents must be counted—both citizens and non-citizens.

When: You will receive your questionnaire in March 2010 either by U. S. mail or hand delivery.

Some people in remote areas will be counted in person.

Why: The U.S. Constitution requires a national census once every 10 years to count the population and determine the number of seats each state will have in the U.S. House of Rep-

resentatives.

The Census also provides valuable information in determining the distribution of resources and funding.

How: Households should complete and mail back their questionnaires upon receipt.

Households that do not respond may receive a replacement questionnaire in early April, 2010. Census takers will visit households that do not return questionnaires to take a count in person.
