

Resolutions of Tribal Council

(Continued from 12)

Whereas Tribal Council recognizes that the health, safety and general welfare of the tribal community members and their families living on the Warm Springs Indian Reservation are matters of the highest importance; and,

Whereas Tribal Council understands that important aspects of maintaining the Tribes' health, safety, and general welfare requires that the Tribes have a strong Public Safety Branch, adult and juvenile tribal court system, and Health and Human Services Branch functioning on the reservation; and,

Whereas Tribal Council also understands that although the existing tribal police department, corrections, Community Counseling Center (addressing mental health and substance abuse), court, and victim's assistance program are diligent in meeting their respective missions, goals, and objectives, there exists the need to update, coordinate and improve these tribal services to maintain and enhance the Tribes' individual criminal, justice, health, social programs and overall justice systems; and,

Whereas as per the U.S. Department of Justice Coordinated Tribal Assistance Solicitation (CTAS), potential funding from several purpose area grants are available to the Tribes. The CTAS grant combines US DOJ tribal government specific competitive grant solicitations into one, and requires only one application from the Tribes. The CTAS grants offer funding for 1) public safety and community policing, 2) methamphetamine enforcement, 3) justice systems, and alcohol and substance abuse, 4) corrections and correctional alternatives, 5) violence against women, 6) elder abuse, 7) juvenile justice, 8) tribal youth program, and,

Whereas the Warm Springs tribal community families and members will benefit from any awards from these U.S. Department of Justice Coordinated Tribal Assistance Solicitation grants; and now, therefore,

Be it resolved by the 25th Tribal Council of the Confederated Tribes of the Warm Springs Reservation of Oregon, pursuant to Article V, Section 1(d), (l), and (p) of the Tribal Constitution and By-Laws, that the Secretary-Treasurer/CEO is authorized to apply for the Fiscal Year 2011 Competitive Grants from the U.S. Department of Justice Coordinated Tribal Assistance Solicitation grant programs, and to administer the grant programs and activities funded under the Fiscal Year 2011 U.S. Department of Justice Coordinated Tribal Assistance Solicitation grants; and

Be it further resolved that the Secretary-Treasurer/CEO is authorized to negotiate and execute any application or award documents in connection herewith the U.S. Department of Justice Coordinated Tribal Assistance Solicitation grants, including any modifications thereto as required; including applying for and administering the grant programs and activities funded under the FY2011 U.S. Department of Justice Coordinated Tribal Assistance Solicitation grants should Congress authorize the funding; including U.S. DOJ's FY2012 and providing periodic progress reports being made to Tribal Council on achievements. (Resolution no. 11,402.)

Culture grants

Whereas the Tribal Council is the governing body of the Warm Springs Reservation of Oregon, and,

Whereas Ordinance 68 pursuant to Article V, Section 1 (l),

enacted authority for the protection, preservation and encouragement of Tribal and Indian history, culture and tradition and found it necessary to ensure the survival of the Confederated Tribes; and,

Whereas the 24th Tribal Council adopted Resolution No. 10,783 directing the entire tribal organization to support six priorities, including; improvement in education and the preservation and enhancement of the Tribes natural, cultural and sovereign endowments; and

Whereas the Culture and Heritage Department is to establish and implement programs designed to maintain and preserve our native traditional and cultural skills; protect archival materials, and create opportunities for tribal members to continue their personal growth in speaking the tribal languages by providing support services and materials, and

Whereas there is an opportunity to apply for federal funding to the Department of Health and Human Services; Administration for Children and Families Division; Administration for Native Americans for three years; and the Administration for Native Americans provides financial assistance through a competitive grant process, as outlined in their program announcements, for language preservation and maintenance; and,

Whereas a potential grant the Administration for Native Americans granting agency would support the programs and goals of the Culture and Heritage Department, now therefore,

Be it resolved by the 25th Tribal Council of the Confederated of the Warm Springs Reservation of Oregon, pursuant to Article V, Section 1 (d) and (l) of the Constitution and By-Law, that the Secretary-Treasurer/CEO is authorized to apply for grant funding to the

National Science Foundation, the National Endowment of the Humanities, the Administration for Native Americans, the National Historical Publications

and Records Commission, and the National Park Service.

Be it further resolved that the Secretary-Treasurer/CEO is authorized to negotiate and ex-

ecute any application or award documents in connection herewith, including any modification thereto as required. (Resolution no. 11,403.)

Geared for the unique needs of Columbia River Indian fishers

READ to SUCCEED!

More literacy. More choices.

Leadership Corner

A Message from Rick Molitor
Superintendent

It's been a challenging year for the Jefferson County School District and I'd like to kick off the summer with a sincere thank you to the teachers and staff who have worked tirelessly to stay focused on our students, their improvements and success. The two main challenges our district has faced are in the areas of funding and student achievement. I'm proud to report that we've had success in both.

The biggest story for this year is our amazing student achievement results. As a result of our on-going Read to Succeed efforts, we have more students reading at grade level than we have ever seen. The improvements have shown up in five grade levels. We know this is the direct result of our teams who have been working hard to engage students at an individual level.

In terms of budget, we have all been asked to do more with less, but we continue to stay focused on students and are proud to be one of the few school districts across our state that did not cut student days. Unfortunately, our funding issues will continue to be a challenge as we start moving toward the 2011-12 school year. Our goal is to use our resources to best meet the needs of our students and communities.

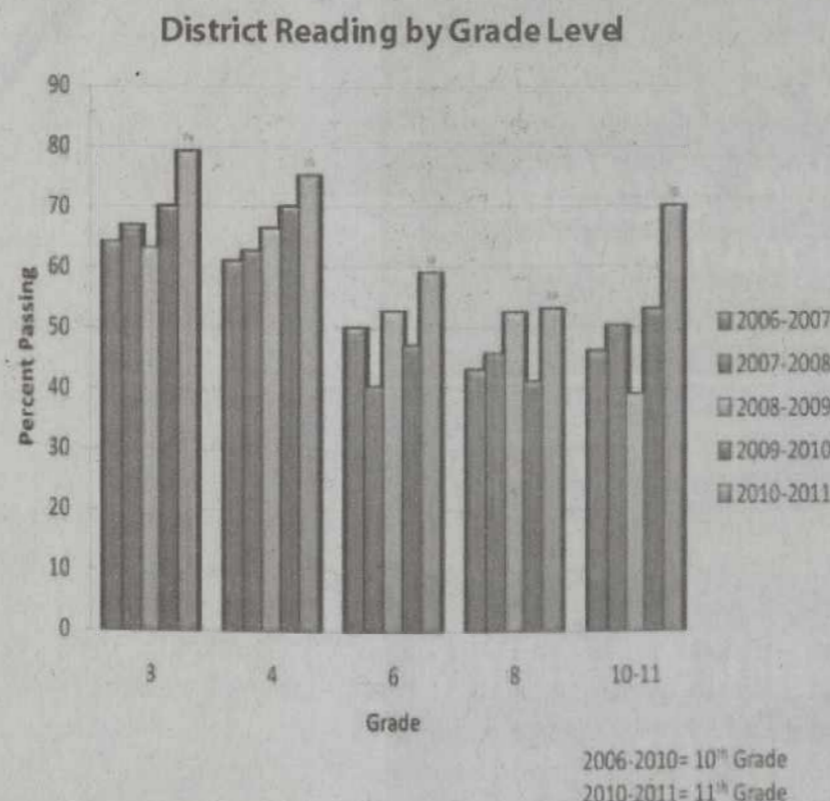

Thanks to our families and community members for supporting our efforts. Have a great summer and we look forward to hearing from you next year.

Rick Molitor
Superintendent

Read To Succeed is Working!

Our teachers and staff have been working tirelessly to help students improve their reading and literacy skills. Here are some of the successes from this past school year:

- 85% of Madras Primary kindergarten students met literacy benchmarks
- 6th and 7th graders achieved the highest reading scores in five years
- Reading growth occurred in 3rd, 4th, 6th, 8th and high school in state testing (OAKS)
- 70% of Madras High School students met or exceeded benchmarks in state testing (OAKS)
- 100% of Big Muddy students met or exceeded benchmarks in state testing (OAKS)

"Life's challenges are not supposed to paralyze you, they're supposed to help you discover who you are."
