

Cause of Sunnyside fire investigated

The cause of a grass fire last Sunday in the Sunnyside neighborhood of Warm Springs is under investigation. Police said the fire seems to have started in a group of trees between Salmon Drive and Crestview.

At around 4:30 p.m., several homes were evacuated as flames came within eight feet of exterior walls.

As the fire slowly moved, the wind continuously shifted position making it difficult to determine where the flames would travel next. Firefighters had the

blaze under control within one hour.

There were no injuries or structures lost in the fire, which is estimated to have burned about 25 acres.
