Benson Heath, August 19, 1947-August 19, 2011

Benson Heath passed away on August 19, 2011. He had just turned 64.

Benson was born near Simnasho on August 19, 1947 to parents Chief Nathan and Lillie Heath. He was one of eleven children.

He attended boarding school in Warm Springs, and then Madras High School. After graduating, Benson moved to San Francisco for a time.

He returned to Oregon and attended Eastern Oregon University in LaGrande.

After graduating, Benson took the job of Personnel director of the Confederated Tribes of Warm Springs. This was a difficult job at

times. His policy in resolving disputes was to always go by the Personnel rules of the tribes.

He stayed at the job until earlier this year.

Mr. Heath served a number of terms on the Warm Springs Power and Water Enterprises Board of Directors. He served on the board during negotiations with PGE resulting in the tribes acquiring part ownership of the Pelton-Round Butte hydro facilities.

Benson was a great fan of Madras High School sports, and attended the basketball, football and other games. He was a great fan of the Oregon Ducks.

Mr. Heath is survived by two daughters, Violet Heath and Julia Heath; and brother Chief Delvis Heath, and sisters Nola Queahpama and Sandra Heath.

Antunez sentenced to 15 years for shooting

(AP) — A federal judge sentenced a man who fired on local police and a U.S. Marshal to 15 years in prison and says he presents the most egregious case he has seen in his career.

Aldo Atunez pleaded guilty to attempting to murder a federal employee. He was

sentenced last week.

His sentence will run after another 15 year sentence he received in state court.

The search for Antunez began in May 2010, when he and Waylon Weaselhead were accused of firing shots while fleeing police.

The 32-year-old Atunez es-

caped and was inside his home on the Warm Springs Indian Reservation in July 2010 when U.S. Marshals tried to serve an arrest warrant. He began shooting and they returned fire, injuring him.

No law enforcement officers were injured.

From Warm Springs Community Counseling:

Chronic methamphetamine use significantly changes how the brain functions. Brain imaging studies have shown alterations in the activity of the dopamine system that are associated with reduced motor skills and impaired verbal learning.
