

# OPB TV now available in Warm Springs

Oregon Public Broadcasting has just turned on a new digital television translator to provide OPB television service to the communities of Warm Springs and Sunnyside.

This joint project with OPB and the Confederated Tribes of Warm Springs provides free television service to a population previously not served by cable or over-the-air trans-

sions.

The new channel is displayed on channel 11, although the signal is broadcast on UHF channel 30. You should scan your digital TV or TV converter box so that you can receive all of OPB's channels: OPB and OPB Plus.

You can view these on 11.1 and 11.2, respectively. In addition, you can listen to OPB's FM

service as well as KMHD on 11.3.

If you have a digital ready TV, you simply need an antenna, like rabbit ears. These are available for about \$10 at electronics stores or "marts" in the region.

If you have an older analog TV, then you need to purchase a converter box. One on-line resource for purchasing a con-

verter box is:

[www.SolidSignal.com](http://www.SolidSignal.com).

In the near future there will be a demonstration of this new channels and how to receive the signal, hosted jointly by OPB, KWSO and the Warm Springs Telco. For questions, visit:

Or call us at 800-241-8123.
