### More Health Care answers

**Question:** What are the special benefits and protections for American Indians in the Marketplace?

**Answer:** Members of a federally recognized tribe have the following benefits and protections under the Affordable Care Act:

They do not have to pay cost sharing for plans purchased in the Marketplace.

They can apply the tax credits that are based on the second lowest cost silver plan to any plan on the Marketplace, including lower cost bronze plans, without losing their cost sharing protections.

They can enroll, disenroll and change plans each month.

They are exempt from the individual mandate, which means they do not have a tax penalty if they do not have insurance coverage.

**Question:** Are American Indians exempt from the tax penalty for not having insurance?

**Answer:** Members of federally-recognized tribes will not have to pay the IRS penalty if they do not have insurance coverage. People who are IHS beneficiaries, or eligible to use IHS, may receive a “hardship exemption” from the tax penalty by applying through a state or federal Marketplace.
