Oxbow Springs

(Continued from page 1)
 Drought conditions, and the process used in a state decision to relinquish a water right, are reasons why the governor informed Fish and Wildlife to withdraw the application.
 The Nestlé plan is to remove about 118 million gallons of water per year from Oxbow Springs. The proposed \$50 million bottling plant would create up to 50 jobs at Cascade Locks, Nestlé and the city said.
 Tribal and public opposition grew, though, as the plan moved forward.

Christmas Dinner

Members of the Warm Springs Shaker Church would like to invite the community to an Old Fashioned Christmas Eve Dinner.
 The dinner will be in the Shaker Church dining hall on Thursday, December 24, at 6 p.m.
 Immediately following, members will gather in the church for sharing and gifting of gifts and a special Christmas Eve candle light service.
 Elsewhere in December: Recreation and Children's Protective Services are hosting a **toy drive** this holiday season.
 You can donate a new unwrapped toy or gift for youth, infants to 17 years old, and drop them off to either the Community Center or CPS office.
