

## Museum exhibit features extraordinary Cradle Boards

*Our children were adored—From their first baby boards to the clothes they wore when they began to walk, and the toys and dolls they played with.*

*These exquisite items expressed the family's deep love for the child. Yet of all the beautifully made childhood treasures, the cradleboard was by the far the most extraordinary.*

*The Museum at Warm Springs invites you to the exhibit—Babies First Home: Cradle Boards of the Confederated Tribes of Warm Springs—on display through early June.*

## Letter in support of Miller for 509-J school board

I write this letter in support of Carina Miller, who is running for seat no. 5 on the Jefferson County 509-J school board.

I have known Carina all her life and have spent the past three years working

with her on the Warm Springs Tribal Council.

At that table she has been an advocate for children, families and education.

She is a hard worker and cares deeply about people.

Carina has educated her-

self about unfamiliar issues and has the ability to consider multiple perspectives in search of true solutions.

The Warm Springs and Madras communities are linked in many ways, one of which is our public edu-

cation system.

We all want what's best for all our children and I know Carina Miller would contribute to that as a school board member.

Thank you.

## W.S. Extension vaccination clinic helps horses

If you are a horse owner and plan a trip out of state, you are required to obtain a health certificate from a veterinarian and have proof your horse has been Coggins tested.

The test was developed by Dr. Leroy Coggins in 1970 and remains the most definitive test for Equine Infectious Anemia.

All states require a negative Coggins test before a horse may be transported across state lines.

Most horse shows, rodeos, and auctions where horses are gathered in one place require a negative Coggins test for all horses entered.

*The clinic will run from 10:30-12:30 on Wednesday, May 15 at the Warm Springs rodeo arena.*

Depending on the state or competition, this negative test must have been obtained during the previous 6-12 months. The Coggins test is simple, inexpensive, and well worth the peace of mind that comes from knowing your horse remains negative for EIA.

Sometimes referred to as horse malaria or swamp fever, Equine Infectious Anemia (EIA) is a nasty virus that causes destruction of the horse's red blood cells, causing anemia, weakness, and death. The EIA virus is primarily spread through biting insects like horse and deer flies. EIA may also be spread through contaminated needles or surgical instruments.

Oregon State Extension will be hosting a Coggins testing and annual horse vaccination clinic on Wednesday, May 15. A USDA veterinarian will be there to provide Coggins testing, annual vaccinations and de-worming for your horse.

The clinic will run from 10:30-12:30 at the Warm Springs rodeo arena.

If you are interested in getting your horse tested, please call the Warm Springs Extension office at 541-553-3238; or Scott Duggan at 541-480-3091.

We need to know how many horses you want Coggins tested, if you want the annual four-way vaccine given and if you want a de-wormer for your horse.

We have to order vaccines two weeks before the clinic so you need to contact us in advance for this service. Check out the OSU Extension Warm Springs Facebook for more information.

## Jackpot rodeo

Young people from Warm Springs competed in the recent Junior Rodeo Jackpot at the arena in Madras. There were bareback ranch bronc, and wild pony races—plus mini bulls and junior bulls, and barrels. This was a Wild West Buckers regional qualifier event.
