

Give your input on IRMP

The Branch of Natural Resources Integrated Resource Management Plan community survey is soliciting input from tribal members and residents of the Warm Springs Indian Reservation.

The purpose of the survey is to document the community's priorities, preferences and concerns regarding the management of the tribes' natural resources, in regard to the Integrated Resource Management Plan (IRMP) 2022 revision.

The IRMP is the tribes'

strategic plan for the comprehensive management of the reservations resources, including forestland and range.

The goal of IRMP is to create a balance within natural resources management actions that reflects social, cultural, economic and natural resource values of tribal members.

Questions in the current survey include matters such as:

Are you familiar with the tribes' Integrated Resources Management Plan?

What is IRMP? And:

Based on your opinion how successful have the tribes been in achieving 'the goals, standards and best management practices' included within IRMP?

You may take the survey online. The site is:
