Casino extends closure, Plateau serving

The Warm Springs gaming enterprise continues to monitor closely the Covid-19 pandemic. The enterprise has made the following statement:

After much consideration, extensive review of current situations with our

Tribal Council and board of directors, Indian Head Casino management has extended the voluntary closure until further notice. At this time, we cannot provide a definite reopen date.

Our top priority remains the health and safety of our communities, team mem-

bers and guests.

We are working diligently to develop and implement a well-defined strategy and stringent safety protocols for when our doors re-open.

The Plateau Travel Plaza full-service travel plaza is open for fuel and retail service, and orders to go.

For the MHS Class of 2020

A unique year requires a unique recognition for the graduating high school class.

The Madras High School Class of 2020 will be celebrated by our communities with personalized banners—one for each graduating student—to adorn the Madras street light poles.

Approximately 180 students will be graduating next month from Madras High School, and the Bridges High School.

The graduates recognition is a coordinated effort between the school district, high school, Bridges High School, the city, and Rip Q Signs and Graphics.

“We are so proud of the class of 2020,” said Madras High School principal Brian Crook.

“We are so grateful for these amazing students and their high level of integrity and class during these challenging times.”

Rip Q Signs and Graphics produced the banners for the high school, and donated a portion of the project cost to the cause.

“I love helping out our students. I wish I could do more,” said Brandon Searcy, Rip Q Signs and Graphics owners.

“These are hard times for everyone, and hopefully this will help boost morale amongst the kids and our community.”

Staff will be putting the banners up on Monday, May 25. “Our crews are

Rick Rohach, operations manager at City of Madras.

School principal Crook added, “These banners are a token of our appreciation of the senior class at Madras High School that make us all proud to be White Buffalos.”

happy to be involved in a feel-good project for our graduating seniors,” said
